## HIGH COURT NOTICE.

### CIRCULAR ORDER.

Issued by authority of the High Court of Judicature at Fort William in Bengal.  
(CRIMINAL).

*No. 2, dated the 27th August 1897.*

AFTER rule 61A. at page 51, Chapter I, of the High Court's General Rules and Circular Orders (Criminal), insert the following:—

#### NATIVE MILITARY PENSIONERS.

61B. (*Native Military Pensioners. Award of sentence on—on conviction.*—C. O. No. 2 of 27th August 1897).—It has been brought to the notice of the High Court that Magistrates, in awarding penalties for offences committed by native military pensioners, not infrequently recite their belief that such pensioners will (on conviction) be subjected to an additional penalty in the shape of loss of pension, and that they take this circumstance into account in deciding on the severity of the sentence passed by them on the offenders. This procedure on the part of Magistrates is incorrect, in so far as it proceeds on the assumption that the pensioners thus convicted must necessarily forfeit their pensions. The attention of all

"Future good conduct is an implied condition of every grant of a pension. The Government reserves to itself the right of withholding or withdrawing a pension, in whole or in part, if the pensioner be convicted of serious crime or be guilty of grave misconduct."

Magistrates is invited to the terms of Article 496, Army Regulations, India, Volume I, Part II, Native Troops (reproduced on the margin), which governs the subject. Under that Article, the Government of India are the sole arbiters on the point whether, in each case, the pension shall or shall not be reduced, or wholly withdrawn, and in considering this point, due weight is given by Government to the sentence actually awarded by the Court in each case. Magistrates should, therefore, not assume that in such cases forfeiture of pension is an invariable consequence of a conviction.

Bhagalpur Collectorate, the 19th August 1897.

H. J. McIntosh, Collector.

## Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below, to the undermentioned estates situate in the district of Burdwan, will be put up to sale at the Burdwan Collectorate on the 24th September 1897, corresponding with 9th Assin 1304.

The purchasers will be subject to the following conditions of sale:—

## Conditions of Sale.

- 1st.—The estates to be sold to the highest bidder above the upset price, which will be fixed by the Collector at the time of sale. The purchasers of these estates will be considered as the proprietors of the estates, and the entire proprietary right of Government in such estates will be transferred to them as revenue-free or subject to the revenue fixed in perpetuity.
- 2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.
- 3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.
- 4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the estate will be again put up for sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Shahabad Collectorate, Arrah, the 24th August 1897.

(Sd.) ILLEGIBLE, for Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates or shares of estates in the district of Faridpur will be put up for sale at the Collector's office of that district on 23rd September 1897 for arrears of revenue and other demands which by the Regulations and Acts in force are directed to be realised in the same manner as arrears of revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale.

Faridpur Collectorate, the 18th August 1897.

K. P. SINGH, for Collector.

## Advertisement of Sale.

NOTICE is hereby given that the proprietary right of Government in the Canal Department, as specified in the conditions of sale below, to the undermentioned surplus canal lands of Kori distributary, situate in the district of Shahabad, will be put up to sale at the Arrah Collectorate on Tuesday, the 4th January 1898, corresponding with 26th Pous 1305 F.S.

The purchasers will be subject to the following conditions of sale :—

## Conditions of Sale.

1st.—The lands to be sold to the highest bidders above the upset price, which will be fixed by the Collector at the time of sale. The purchaser of these lands will be considered as the proprietor of the lands, and the entire proprietary right of Government in such land will be transferred to him revenue free.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the Revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the lands to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale :—

## Notice.

THE terms of the leases in respect of the Mica Mines named in the accompanying list having expired, fresh leases for five years will be granted to the highest bidders. For this purpose, the mines will be put up to auction, at the Deputy Commissioner's Office, Hazaribagh, on the 15th October next. In addition to the rent thus determined, a royalty of 2½ per cent. will be levied on the sale value of the Mica at the pit's mouth.

The conditions of the lease have been prescribed in rule 15 of the revised rules for the grant of prospecting, licenses and mining leases for Mica published at page 919, Part I, of the *Calcutta Gazette* of the 7th July 1897.

J. L. HERALD,  
Deputy Commissioner.

No. 1000G.

## Advertisement of Sale of Government Estates.

NOTICE is hereby given that the proprietary right of Government, as specified in the conditions of sale below to the undermentioned estates situate in the district of Noakhali, will be put up to sale at the Noakhali Collectorate on the 9th November 1897, corresponding with the 24th Kartic 1304 B.S.

The purchasers will be subject to the following conditions of sale:—

## Conditions of Sale.

1st.—The estate to be sold to the highest bidder above the upset price. The purchaser of this estate will be considered as the proprietors of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity. A deduction of 25 per cent. from the existing rents will be granted to the purchasers for collection expenses.

2nd.—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid at once.

4th.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or, if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

## Municipal Corporation of Calcutta.

## Bye-law for Cart Registration.

EVERY driver of a registered cart shall, at all times while acting as such driver, wear a metal ticket exposed to view, marked or engraved with a number corresponding with the registration number of the cart; and such ticket shall on application be delivered by the Commissioners free of cost at the time of the registration of the cart to the owner or the person in charge at the time for the use of the driver of the cart for the time being. On the expiry of the period for which such license is granted, the owner or person in charge of the cart is bound to return such ticket to the Commissioners. But in the case of the words or figures on the metal ticket becoming disfigured or obliterated or of a metal ticket being lost or stolen within the period for which such ticket is issued, a duplicate ticket may, with the sanction of the Commissioners, be issued on payment of a fee of two rupees.

### The Indian Law Reports.

Published under Authority.

The Indian Law Reports, published under the authority of the Governor-General in Council, comprises monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and comprises four series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depot, and the Madras, Bombay, and Allahabad Series are distributed direct from Madras, Bombay, and Allahabad respectively.

In supersession of the previous advertisements, on and from the 1st January 1899 the terms of subscription and sale will be as follows for current issues as well as for back numbers of the Reports from 1876:—

Terms of subscription payable annually in advance.

For the complete series including postage, Rs. 22-8.

## NOTICES TO MARINERS.

### GOVERNMENT OF BENGAL—MARINE DEPARTMENT.

NOTICE TO MARINERS—No. 177.

[First Publication.]

AUSTRALIA, SOUTH COAST—KANGAROO ISLAND, NEPEAN BAY.

*Alterations in buoys marking telegraph cable.*

THE British Admiralty has given notice (No. 471 of 1897) that the undermentioned alterations have been made in the buoys marking the direction of the telegraph cable in Kingscote harbour, Nepean bay:—

1. A new *perch* buoy, painted green, has been moored in Kingscote harbour in approximately lat.  $35^{\circ} 40' 0''$  S., long.  $137^{\circ} 39' 50''$  E.
2. The red *perch* buoy, previously moored at the southern extremity of the dry spit southward of Beatrice island, has been withdrawn.
3. The colour of the *bell* buoy, moored in approximately lat.  $35^{\circ} 41\frac{1}{2}'$  S., long.  $137^{\circ} 42\frac{1}{2}'$  E., has been altered from red to green.

NOTE.—Vessels should anchor well northward or southward of the line joining these buoys and the beacons at Kingscote.

CHINA SEA—HONG-KONG.

*Alterations in Storm Signals.*

THE British Admiralty has given notice (No. 476 of 1897) that the Storm Signals shown from the mast in front of the Police barracks at Kau lung have been altered to be in accordance with those shown in the United Kingdom (except 3), as follows:—

1. NORTHERLY GALES:—A *cone*, point upwards, indicates that strong winds are probable from the northward or eastward.
2. SOUTHERLY GALES:—A *cone*, point downwards, indicates that strong winds are probable from the southward or westward.
3. VERY HEAVY GALES:—A *drum* may be hoisted, in addition to the cone, when a heavy gale, possibly reaching typhoon force, is probable; the cone indicating the direction from which it is approaching.

A gun, situated close to the mast, is fired whenever the drum is hoisted.

4. NIGHT SIGNALS:—By night, signals 1 and 2 only are given, by means of *three* lights (all *white*, or all some other colour) placed triangularly; the single light upwards for signal 1 and downwards for signal 2.

CHINA SEA—PESCADORES ISLANDS.

*Ponghan—Foul ground south-south-east of rock south-eastward of Lichin Point.*

THE British Admiralty has given notice (No. 484 of 1897) that foul ground, with depths of 11 to 20 feet on it at low water springs, coral bottom, extends apparently for a distance of 3 cables, with a width of  $1\frac{1}{2}$  cables, in a S.S.E. direction from the rock bearing S.E.  $\frac{1}{4}$  S., distant  $1\frac{1}{4}$  miles, from Lichin point.

From the southern extremity of the foul ground round island bears N.  $28^{\circ}$  E., distant  $1\frac{1}{2}$  miles; and three islands S.  $86^{\circ}$  E.

Approximate position: lat.  $23^{\circ} 31' 25''$  N., long.  $119^{\circ} 42' 5''$  E.

The rock from which the foul ground extends dries about 4 feet at low water.

*North island—Delay in exhibition of Cape Palliser light.*

With reference to Notice to Mariners No. 43(2), dated 1st March 1897, issued by this office, the British Admiralty has given further notice (No. 489 of 1897) that Cape Palliser light will not be ready for exhibition until about the middle of October 1897:—

Cape Palliser (Rocky point) light will be a dioptric, group flashing white light with a period of thirty seconds, showing two flashes, separated by an interval of three seconds, in each group.

It will be elevated 258 feet above high water, and visible seaward over an arc of 214°, a distance of 23 miles in clear weather.

Approximate position: lat. 41° 36' 45" S., long. 175° 18' 45" E.

*Buoy eastward of Steeple rock.*

THE British Admiralty has given notice (No. 493 of 1897) that a flock can buoy has been moored in a position with Steeple rock bearing N. 88° W., distant 1½ cables; and Pencarrow head light-house S. 21° E.

Approximate position: lat. 41° 19' 30" S., long. 174° 50' 50" E.

NOTE.—Vessels should pass eastward of this buoy, and by night, when in its vicinity, keep in the sector of white light shown from Somes island light-house, as the junction of the red and white sectors of that light passes immediately over the buoy.

*Sendai bay—Dangers in approach to Matsushima bay.*

THE British Admiralty has given notice (No. 495 of 1897) that, in a recent survey of the Ishihama entrance to Matsushima bay, many new dangers have been found:—

1. O ne, in lat. 38° 16' 15" N., long. 141° 9' 50" E., is a rock with less than 6 feet water on it.
2. Jinotaka ne, formerly known as Naka ne, in lat. 38° 17' 50" N., long. 141° 9' 15" E., has a depth of 1½ fathoms on it.
3. Okinotaka ne, a new rock which with Jinotaka ne forms Naka ne, has a least depth of 2½ fathoms on it with 4½ fathoms to the south-eastward.

Approximate position: lat. 38° 17' 30" N., long. 141° 9' 45" E.

The above are the outer dangers; the rest are too numerous to mention in a Notice to Mariners, but the old chart will be cancelled and a new chart will shortly be published showing all the dangers found.

PACIFIC OCEAN—FIJI ISLANDS.

*Viti Levu—Beacon and buoy in Suva harbour.*

THE British Admiralty has given notice (No. 453 of 1897) that a black beacon, consisting of a boarded framework, surmounted by a rectangular topmark, the top of which is about 12 feet above the level of high water springs, has been erected at the southern extremity of the spit which dries at low water springs, southward of Low Clifty point.

From the beacon Low Clifty point bears N.N.E., distant  $5\frac{1}{4}$  cables; and Walou beacon E.  $\frac{1}{2}$  S.

Approximate position on Plan No. 1757, lat.  $18^{\circ} 7' 35'' S.$ , long.  $178^{\circ} 24' 55'' E.$

NOTE.—A light may occasionally be shown from this beacon when large vessels are leaving the harbour.

Also, that a white *Cask* buoy has been placed on the patch, with a depth of  $4\frac{1}{2}$  fathoms on it, situated with the steamer pier lighthouse bearing E.  $\frac{1}{2}$  N., distant  $5\frac{1}{10}$  cables.

*Vanua Levu—Sunken rock east-north-east of Venua island.*

THE British Admiralty has given notice (No. 454 of 1897) of the existence of a pinnacle rock, on which he sounded from a boat and obtained a least depth of about 11 feet at low water, in the channel westward of Nai Thombo Thombo point.

The position of the rock cannot be accurately fixed by the bearings given, but it is probably situated in approximately lat.  $16^{\circ} 47' S.$ , long.  $178^{\circ} 24\frac{1}{2}' E.$

The words "Rock with  $1\frac{1}{2}$  fathoms over it reported hereabouts" have been written on the Admiralty Chart near the above position.

*Shoal patches near Claremont group.*

THE British Admiralty has given notice (No. 13 of 1897) of the existence of three shoal patches of coral in the following approximate position, viz.:—

A patch with 5 fathoms over it, lying in Latitude  $13^{\circ} 25' 50''$  South, Longitude  $143^{\circ} 41' 20''$  East;

A patch with  $4\frac{1}{2}$  fathoms over it, lying North  $29^{\circ}$  West, distant 2 cables from the before-mentioned patch; and

A patch with 5 fathoms over it, lying North  $15^{\circ}$  East, distant 2 cables from the first-named patch.

Foul ground exists round these shoals, and a complete examination has not yet been made. Masters of vessels are cautioned accordingly.

### RESOLUTION ON THE STATISTICAL INFORMATION FURNISHED BY THE BOARD OF REVENUE REGARDING THE STAMP DEPARTMENT FOR THE YEAR 1896-97.

#### FINANCIAL DEPARTMENT—SEPARATE REVENUE.

*Darjeeling, the 18th September 1897.*

#### RESOLUTION—No. 361T.F.

READ—

A memorandum No. 657B., dated the 21st August 1897, from the Board of Revenue, submitting statistical information regarding the Stamp Department for the year 1896-97.

The receipts, charges, and net revenue in 1896-97, under both the Indian Stamp Act I of 1879, and the Court-fees Act VII of 1870, were Rs. 1,75,74,310, Rs. 4,93,461 and Rs. 1,70,80,849, respectively, against Rs. 1,67,71,627, Rs. 4,74,968 and Rs. 1,62,96,659 in the preceding year. The increase in receipts occurred in both judicial and non-judicial stamps.

2. According to the figures furnished by the Superintendent of Stamps, which will have to be reconciled with the final figures compiled by the Accountant-General, Bengal, the sale proceeds of judicial stamps show an increase of Rs. 3,46,960, against Rs. 36,280 in 1895-96, adhesive and impressed, court-fee stamps and stamps for copies alike contributing to the improvement. The increase is most marked in Midnapore (Rs. 65,755), Hooghly (Rs. 54,711), 24-Parganas (Rs. 39,116), Rangpur (Rs. 34,564), Patna (Rs. 30,884),

Backergunge (Rs. 30,148), Burdwan (Rs. 27,841), Bankura (Rs. 23,407), and Cuttack (Rs. 21,918). Increased litigation, the higher values of some of the suits, and improved receipts from probate duty, are the causes assigned.

3. The increase of Rs. 4,93,622 in the value of non-judicial stamps sold was shared by all classes of stamps except share transfer, hundi, notarial and advocate, vakil and attorney stamps. Impressed sheets, the most important of non-judicial stamps, show an advance of no less than Rs. 3,77,801, which was contributed by 41 districts, the largest increases having occurred in Mymensingh (Rs. 38,777) and Monghyr (Rs. 32,038). The improvement in Mymensingh is attributed to the increase in loans, mortgages, sales, &c., caused by the high prices of food-grains; while the increase in Monghyr is said to be due partly to a larger use of stamps in completed cases of batwara, and partly to extensive purchases of stamps by a rich banker. Impressed labels, or special adhesive stamps, which are in use only in Calcutta, improved by Rs. 1,11,964, owing to the execution of certain conveyances of tea estates for large considerations. One-anna revenue stamps show an increase of Rs. 24,574, foreign bill stamps of Rs. 4,602, and impressed one-anna stamps for cheques, &c., of Rs. 781. On the other hand, there is a decrease of Rs. 21,707 under share-transfer stamps, of Rs. 3,431 and Rs. 462, respectively, under hundi and notarial stamps, and of Rs. 500 under advocate, vakil, and attorney stamps.

4. The number of cases in which deficient stamp duty and penalty were levied by the Civil and Revenue Courts during the year was 3,409, against 4,113 in 1895-96, and the amount of duty and penalty realized was Rs. 34,208, as compared with Rs. 39,478. Prosecutions for the infringement of the provisions of the Indian Stamp Act were instituted in 415 cases, against 1,249 in the preceding year. The fines imposed on offenders amounted to Rs. 3,261, against Rs. 8,789, and rewards to informers paid in 10 districts aggregated Rs. 1,093, against Rs. 2,230 paid in 15 districts in the previous year.

By order of the Lieutenant-Governor of Bengal,

C. E. A. W. OLDHAM,

*Offg. Secretary to the Govt. of Bengal.*

**RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT  
OF THE BURDWAN DIVISION FOR THE YEAR 1896-97.**

GENERAL DEPARTMENT—MISCELLANEOUS.

RESOLUTION No. 2608.

*Durjooling, the 14th September 1897.*

READ—

The Annual General Administration Report of the Burdwan Division for the year 1896-97.

The Commissioner remarks that though the district reports were submitted with fair punctuality, the statistics accompanying them were often both incomplete and inaccurate. The Lieutenant Governor trusts that District Officers will devote greater attention to this matter in future.

Mr. C. E. Buckland had charge of the Division during the year, except for about three months when Mr. Stevenson officiated for him. Mr. Stevenson submits the present report. Mr. W. R. Bright was in charge of the Midnapore district throughout the year; in each of the other districts there was one change of District Officers, except in Birbhum, where there were three. There were changes in the charge of all the Subdivisions except Raniganj, Katwa, Vishnupur and Jahanabad. As many as five different Officers held charge of Serampore; it is to be regretted that administrative necessities should have required these numerous changes; it is not surprising that the Commissioner, on inspecting the Subdivisional office, should have found it in an unsatisfactory state.

On the 1st December 1896, the head-quarters of the Commissioner were transferred from Burdwan to Chinsurah.

2. *Tours and inspections.*—Mr. Buckland visited every part of the Division, making himself acquainted with the conditions of his charge, and discussing locally the most important pending matters. He also inspected all the district and subdivisional offices, except those at Burdwan Sadar and the Hooghly Treasury, which were inspected by Mr. Stevenson, and that at Uluberia, which was left uninspected. Mr. Stevenson, however, visited this place shortly after the close of the year.

In the Resolution of this Government No. 749Mis., dated 18th February 1896, it was directed that Commissioners should decide annually the duration of each District Officer's tour, and what the tour programme of each officer should comprise. Except in the case of the Burdwan district, it has not been stated in the present report what periods of tour were prescribed by the Commissioner under those orders; the Lieutenant-Governor desires that this information may be given in future Divisional Reports, and that it may be stated how far the tours, prescribed by the Commissioner, have been made. The District Officers of all districts except Howrah, as well as the Subdivisional Officers, appear to have spent sufficient periods on tour: besides the usual enquiries and inspections, they devoted special attention to the condition of the people, and to the question of food supplies. Mr. Bright, in Midnapore, and Mr. Manisty, in Bankura, were on tour for 122 and 110 days, respectively. Mr. Maguire, in Howrah, was prevented by an epidemic of small-pox, by the necessity for taking measures to prevent the spread of plague, and by other Municipal affairs, from spending more than 45 days on tour.

The Government and Wards' Estates in Midnapore, and the Government Estates in Hooghly, were inspected by the Commissioner and Collector. It does not appear whether the Collector of Bankura and the Subdivisional Officers in Birbhum, Howrah, Bankura and Burdwan inspected their own offices; the Subdivisional offices at Katwa, Rampur Hât and Vishnupur were each inspected only once. Otherwise, all the prescribed inspections appear to have been made, except, as noted above, at Uluberia.

3. *Crops: material condition of the people.*—Although the Divisional average of rainfall was more than 10 inches higher than in 1895-96 (50·52 inches against 40·21), it was nearly 7 inches below that of 1894-95 (57·39 inches) and was ill distributed, as indeed was the rainfall throughout the greater part of India. The crops were poor as a whole, but they were better than in

other parts of the province; and Bankura is the only district of the Division in which it has been found necessary for Government to open relief operations.

During the year under review, the Division exported no less than 28,99,718 maunds of paddy, and 53,89,969 maunds of rice. The exports of paddy in 1895-96 had amounted to 9,31,604 maunds, and those of rice to 46,11,509 maunds; it is noteworthy that the export trade of the Division in paddy was more than three times as great in 1896-97, while that in rice increased only by about one-sixth. The nett export of all classes of food-stuffs in 1896-97 was 72,75,386 maunds, and this large export trade continued undiminished in 1897-98. The crops of 1895-96 had been short also; and a Division which can afford, after two years of poor crops, to export such enormous quantities of food-stuffs, must produce very much more than is required for local consumption, and have large hoards of food-grains in ordinary years. The value of rice and paddy exported from the Division, during the year under report, is estimated at  $2\frac{3}{4}$  crores of rupees.

Prices of food were high in this Division, as elsewhere, but the wages of labour showed no tendency to rise; and the agricultural depression affected most labourers and handicraftsmen and the classes with small fixed incomes. Mr. Stevenson thinks, probably with truth, that the greater portion of the profit on exports went to middlemen and mahajans.

4. *Public health*.—The year 1896 appears to have been more unhealthy than the two previous years, the Divisional ratio of reported deaths *per mille* being 32·8, against 31·7 in 1895 and 31 in 1894. The chief increase on the death-rate of 1895 was in Bankura and Midnapore. The total of deaths from fever was rather less than in 1895 (166,603 against 168,494), but 27,715 persons died of cholera, against 16,981 in 1895. The severest outbreaks of cholera appear to have been in the riparian towns of Howrah, Bally and Serampore; but this disease prevailed largely throughout the Division, a fact attributed in part to the scarcity of good potable water. District Boards and Municipalities did their best to relieve this want, so far as their funds admitted, and advances were given freely by Government for the excavation and improvement of tanks. It is reported also that some efforts were made by private persons, who spent as much as Rs. 28,090 in this way in the Burdwan district.

5. *Emigration*.—The number of emigrants to the tea districts, registered during the year, shows a very marked decrease to 922 from 4,510 in 1895-96. On the other hand it is reported that "free" emigration was very brisk, owing to the agricultural depression and to the large demand for labour in the tea gardens: the total figures are not available, but 16,588 "free" emigrants are said to have passed through the depôts in the Burdwan district against 12,361 in 1895-96. The decline in registered emigration was confined to this district, and has not been satisfactorily explained. The matter is one to which the attention of the Superintendent of Emigration may with advantage be given. There was again a large number of convictions for abuses connected with recruitment, and Mr. Stevenson's remarks on this matter are of interest.

6. *Manufactures and Mines: Trade and Commerce*.—As was remarked in the Resolution on the Report for 1895-96, the principal industries—pottery, jute and cotton-spinning and weaving, rope-making, the manufacture of chemicals and paper—appear to be progressing steadily; but in the absence of complete figures it is not possible accurately to gauge the progress made. The indigenous silk, shell-lac and brass industries continued to decline. It is reported that there is considerable competition for coal-producing land in the Raniganj Subdivision, and that the search for fresh strata is being pushed on. The exports (chiefly by rail) of coal and coke from the Division, which may be taken as a fair measure of the outturn, aggregated 1,484,969 tons, against 806,232 tons in 1895-96. The expansion of the trade in food-stuffs has been already noticed. Taking all articles of trade together, there appears to have been a marked decrease in imports (from 86,93,576 to 76,28,788 maunds) in spite of the great increase of exports (from 2,81,48,719 to 4,91,77,238 maunds); and this is no doubt due to the high prices of food-grains.

7. *Vital statistics*.—It was pointed out in last year's Resolution that the reported birth-rate was often much lower than the death-rate, and that such a result could scarcely be accepted as true. In Municipalities in which a

large proportion of the population consists of mill-hands and other labourers or servants, who have left their families at home, the figures returned may to some extent represent actual facts; but generally there can be no doubt that they are vitiated by defective reporting. Some progress seems to have been made in this respect in the Burdwan district, where the recorded birth-rate now approximates more nearly to the death-rate than in 1895, though still much below it.

8. *Civil Justice*.—Ninety-five thousand three hundred and forty-eight cases were disposed of in the Civil Courts, against 89,049 in 1895, and the number of witnesses examined was 110,940, against 103,151 in 1895. Though the number of witnesses increased, the Lieutenant-Governor notes with satisfaction that they were discharged more promptly, for the proportion of those examined who were detained more than two days was 9·3 per cent. in Courts of District and Subordinate Judges and Small Cause Courts, and 16·8 per cent. in the Munsif's Courts; the corresponding percentages in 1895 were 13·8 and 17·7 respectively.

9. *Crime: Police: Criminal Justice*.—Both cognizable and non-cognizable crime showed a continued increase, 21,800 cognizable cases excluding those in which the police refused enquiry and 20,991 non-cognizable cases being reported, against 18,928 and 20,526, respectively, in 1895. If offences against sanitary regulations are excluded, the number of cognizable cases rose from 12,196 to 13,448. The increase of crime was most marked in the case of offences against property and was, as Mr. Stevenson remarks, in all probability mainly due to the agricultural depression and high prices of food-grains that prevailed. There were 8,352 prosecutions for sanitary offences. As in 1895, more than 96 per cent. of the cognizable cases reported were found to be true, 872 were declared false, and prosecutions instituted in connection with 108 of these; 28·7 per cent. of these prosecutions resulted in conviction. The proportion of cases in which the police refused enquiry to cases investigated was 5·1 to 100, against 7·1 to 100 in 1895. Police cases appear to have been disposed of less promptly than in 1895.

Out of 203 cases tried at the Sessions, convictions were obtained in 60·09 cases, a result slightly less favourable than in 1895.

Stipendiary Magistrates disposed of 17,071 cases, and Honorary Magistrates of 9,985. Thirty-three thousand nine hundred and fifty-five persons were tried, and 70·22 per cent. of them were convicted; 67,415 witnesses were examined, and 6·38 per cent. were detained more than two days. The Lieutenant-Governor regrets to notice that the proportion of witnesses detained for more than two days is considerably higher, both in the Courts of Stipendiary and of Honorary Magistrates than in 1895, when it was only 3 per cent. This is a matter to which the unremitting attention of the Commissioner and District Officers should be given. The detentions are greater in the Courts of Honorary than in those of Stipendiary Magistrates and are attributed to the late attendance or entire absence of some Honorary Magistrates. The Lieutenant-Governor approves of the action taken in calling on Magistrates, who do not attend at all or come late, either to resign, or to perform their duties with more punctuality in future.

Fines to the amount of Rs. 1,24,115 were imposed during the year; Rs. 1,10,941 were collected out of the total demand, and Rs. 12,872 remitted. Mr. Stevens is glad to notice the excellent attendance of Honorary Magistrates at the Vishnupur Bench.

The District Officers have not recorded any detailed criticisms of the conduct of the police; but Mr. Stevenson makes some interesting remarks on the peculiar difficulties with which the police have to contend in districts like Burdwan, Hooghly, Howrah and Midnapore, where crime is better organized and planned than in more remote and backward districts.

10. *Land Revenue*.—The total demand, current and arrear, on account of land revenue, road, dāk and embankment cesses was Rs. 1,02,99,462; and the amount collected was Rs. 96,98,192, or 94·16 per cent. A sum of Rs. 74,657 was remitted. In the Resolution on last year's Report, it was remarked that there was much room for improvement in the revenue administration of this Division. The Lieutenant-Governor is glad to observe that, notwithstanding the unfavourable circumstances of the year under report, considerable improvement

has been effected. The collections of land revenue were much better than in 1895-96, especially in Midnapore, where 95·91 per cent. of the current demand was collected. Midnapore has long been known as a difficult district in respect of collections, and the improvement that has now been made reflects great credit on Mr. W. R. Bright, the Collector. In Midnapore and Hooghly, 98 per cent. of current demand in permanently-settled estates was collected, and the other three districts attained the prescribed standard of 99 per cent. Having regard to the short crops and general agricultural depression of the year, Mr. Stevens considers these results creditable to the Revenue Officers and to the Zamindars of the Division.

The following were the percentages of collections on the current demand in temporarily-settled estates, the prescribed standard being 95 per cent. :—

|                     |     |     |     |      |
|---------------------|-----|-----|-----|------|
| Burdwan             | ... | ... | ... | 40·3 |
| Birbhum             | ... | ... | ... | 100  |
| Bankura             | ... | ... | ... | 69·0 |
| Midnapore           | ... | ... | ... | 92·4 |
| Hooghly with Howrah | ... | ... | ... | 69·1 |

Burdwan, Bankura and Hooghly show no signs of improvement in this matter, but no explanation of the continued bad results in this class of estates has been furnished. The Lieutenant-Governor again desires to call the Commissioner's attention to the short collections in temporary-settled and farmed estates. The collections in Government estates were on the whole not unsatisfactory.

11. *Wards' Estates.*—There were eight estates or portions of estates under the management of the Court of Wards in the Division. Three were released during the year; two of these were handed back with substantial balances, but the third, Barutterhingley, was given up, because its management by the Court had not been successful. Leaving out of consideration the small portion of the Shankarpur Estate in Howrah, the percentage of total collections on total demand was best in the Burdwan Raj Estate, where it was 71·3.

In last year's Resolution, attention was drawn to the obvious necessity of remitting portions of the outstanding arrears; but the Lieutenant-Governor regrets to find that the only estates in which substantial progress has been made in either realising or writing off the large arrear balances, are those of Nayagram and Sujamutha in Midnapore. A thorough examination of outstanding balances would appear to be especially necessary in the Burdwan Raj Estate, and one should be carefully made without further delay.

12. *Excise, Stamps, Income-tax.*—The total excise revenue rose from Rs. 13,30,348 to Rs. 13,56,767, the increase being distributed under all heads; the incidence per head of population was 2 annas 9 pies. The increase is attributed partly to better settlements and partly to the more effectual repression of smuggling, and in Midnapore and Howrah to the influx of Railway and other coolies from other provinces, who were consumers of excise articles. In other districts, the excise revenue was, it is reported, affected injuriously by the bad crops of the year. The stamp revenue increased largely from Rs. 19,18,462 to Rs. 21,67,367, a fact which, as well as a large increase in the registration of deeds, is probably due to the bad harvests. The income tax yielded Rs. 2,41,653, the percentage of collection on the final demand being 99·7, still better than in the preceding year.

13. *Communications.*—Work was being vigorously pushed forward on the Calcutta-Midnapore-Cuttack and Sini-Midnapore extensions of the Bengal-Nagpur Railway. Two tramway lines were under construction in the Howrah district. The District Board did their best to maintain and improve existing roads, but their funds are barely sufficient even for that purpose. There is happily no general need for new roads in the Division.

14. *Education.*—There were 10,986 schools, with 311,956 pupils, at the end of the year, being 30 less schools and 8,626 more pupils than at the end of 1895-96; and 54·7 per cent. of the total number of boys of a school-going age were at school, against 52·9 in the previous year. The number of girls at school diminished by 4,367 to 14,165, but no explanation has been furnished by the District Officers concerned. The cost of education in the Division was Rs. 11,72,395, less by Rs. 4,440 than in 1895-96. The number of Muhammadans

at school remained practically stationary at 29,595. The technical schools at Burdwan and Maisadal appear to have done good work.

15. *Dispensaries and Hospitals.*—There were 54 medical institutions in the Division; that at Burdwan continues to be the most successful. A number of dispensaries are kept up by zamindars for the benefit of the public at their own expense.

16. *Local Self-Government Institutions.*—District Boards are reported to have worked well; but Local Boards appear to have done only a very small modicum of useful work. Of the newly-formed Unions, some in Midnapore, which contained official or ex-official members, are said to have done useful work. A general election of Municipal Commissioners was held during the year, and is said to have aroused interest. Mr. Stevenson points out the increasing reluctance of desirable candidates to put themselves forward for election to Municipal Boards. Conservancy is he says, sometimes imperfectly supervised by Municipal Commissioners; taxes are often badly in arrears; Municipal Commissioners are too prone to unwarrantable interference with the servants of the Municipalities, forgetting that it is not for them, but for the Chairman or Vice-Chairman to pass orders direct. Party-feeling runs high among them, and sometimes public interests are subordinated to it. But with all these defects, Mr. Stevenson acknowledges that it has usually been possible to find a majority of the Commissioners open to reason in the long run. A new Municipality was formed at Asansol. Municipal management appears to have been fairly satisfactory, except in the important towns of the Hooghly district, where it ought to have been better and not worse than in the remoter parts of the Division, if wealth and education have any effect. The Magistrate of Howrah fears that funds will not be forthcoming by which to maintain the present high standard of efficiency in that Municipality.

17. *Social and Political Institutions.*—The Division contains 24 Associations of various kinds, mostly occupied with local matters. Seven journals are published.

18. *Conduct of Zamindars.*—It is reported that the relations between landlords and tenants were unusually good, except in two cases. Raja Ram Ranjan Chakravarti Bahadur of Hitanpur, Raja Joti Prasad Garga of Moisdal, and Babu Pulin Behari Singh of Ukhra in Burdwan, are specially mentioned for their liberality. The last named gentleman remitted a whole year's rent on account of the bad harvests.

19. The thanks of the Lieutenant-Governor are due to Messrs. Buckland and Stevenson for their efficient administration of the Division, and to Mr. Stevenson for his clear and interesting Report, from which the following extracts are published for general information.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

*Secretary to the Govt. of Bengal.*

*Extracts from the Annual General Administration Report of the Burdwan Division  
for the year 1896-97.*

III.—WEATHER AND CROPS.

PARA. 22. The Collector of Burdwan considers that taking into account the enormous and continuous exports of the last seven months, the average outturn of the winter rice crop was not less than 12 annas. The areas which suffered most owing to deficient rainfall and unequal distribution of rain, were the Budbud and the Ausgram thanas in the Sadar and Kaksa in the Raniganj subdivision. The weather was specially unfavourable to the sowing, germination, and growth of wheat, and of pulses generally. Sugarcane was the only crop that succeeded, but its outturn was affected to some extent by the unusual dryness of the early winter months.

23. In thana Dubrajpur, in Birbhum district, the winter rice crop produced a 12-anna harvest, but in the rest of the district the yield was between seven and nine annas only. The outturn of the *rabi* crops did not exceed three annas.

24. The yield of the *aman* or main rice crop was not on the average eight to nine annas, and in the northern parts of thana Sonamukhi, the west and north of thana Gangajalghati, and in the south-west corner of the district the outturn was as low as four to five annas. These are the areas in which, after the close of the year, scarcity was first declared. The *aus* crop may have been a 12-anna one. The cultivation of other kinds of rice is restricted to certain localities, and is unimportant. Very little *rabi* is grown in the district and this crop also suffered. Sugarcane, however, did better, the outturn being estimated at 10 annas. As usual, two varieties of cotton were grown, but the area under cultivation is said to have been much smaller than usual for want of moisture at the sowing season. The outturn was about eight annas. Indigo yielded only half an average crop; the plants when ripe in August having suffered from the heavy rainfall.

25. In Midnapore the entire absence of rain in September had a most injurious effect on the crops. The Magistrate and Collector of Midnapore remarks that "the fact that the quantity of rice exported this year was by far greater than that of any previous year shows that there were ample stocks (of old paddy), and it was thus that the district was saved from a famine."

26. It is reported from Hooghly that the protracted drought of the year not only injured the paddy crop, but to a large extent prevented the sowing of *rabi*. *Rabi*, where sown, however, yielded a fair outturn wherever water was available from tanks or rivers. In Jahanabad, the outturn of the paddy was estimated at nine annas against eight annas in 1895-96, and in Serampore at only six annas, though the Magistrate considers this figure too low. In Sadar the yield was about eight annas. Throughout large tracts in the north, which were visited by Mr. Allen, the District Officer, extensive fields were actually bare or had given only a two or a four-anna crop. Jute did well in Serampore, and so did potatoes, which are widely cultivated in places, where irrigation is feasible. Some damage was caused in the Jahanabad subdivision by floods in the Damodar river.

27. There would probably have been a total failure of the *aman* in Howrah, but for a rainfall of close on six inches early in September which saved the crop.

V.—MATERIAL CONDITION OF THE PEOPLE.

41. The unsatisfactory harvest of the year under review following the short crops of 1895-96 affected materially the condition of certain classes of the people, though not to the extent noticeable in other parts of the country.

Those who had reserves of grain to dispose of, obtained large profits from its sale as prices ruled high throughout the year. But everywhere for weavers, and such like; for those on small fixed incomes, and for those of the lower middle class with small holdings which they are above cultivating themselves, the year was a hard one as it was also for many of the labouring and landless class, and for persons cultivating small holdings who had no reserves of grain. The figures supplied by District Officers show that no less than 28,90,056 maunds of paddy and 53,88,609 maunds of rice were exported from the Division during the year, and this taking rice at 10 seers and paddy at 20 seers the rupee represents a payment to the exporters of Rs. 2,73,34,548. How much of this sum stands for profit it would be interesting to know. It is not, however, likely that it was the cultivator who as the rule benefited where there had been successive bad harvests, as he could have but little surplus to get rid of after settling with the money-lender. The exports more probably put money only into the mahajan's pocket in the majority of cases.

42. In Burdwan the people who most felt the effects of short crops and of high prices were as usual the lower middle classes and beggars, as there was no dearth of work for labourers, and the mining population in the Raniganj subdivision obtained high wages in spite of the stagnation of the coal trade.

43. In Birbhum the exports amounted to no less than 20,13,153 maunds, the value of which is estimated at Rs. 60,39,459. Here also the Collector observes, the cultivating classes were comparatively well off, while there was considerable hardship among labourers and persons in service.

44. In Bankura, in parts of which the failure of crops was extensive, the landless class, largely made up of Bauris, is reported to have felt the strain of high prices severely. A considerable proportion of the labouring population is said to have left the district in quest of employment. This, however, is always the case, and while very possibly a larger number than usual so left last year, there are no reliable figures available. Advances under the Land Improvement and the Agriculturists' Loans Acts were freely made, and actual distress did not make its appearance until some time after the close of the year, when it was found necessary to declare the district as affected by scarcity and to open relief works.

45. The report from Midnapore is more favourable. The high prices which prevailed enabled cultivators, it is said, to make large profits by the sale of the surplus from the previous year's crops which had been fair. In the low-lying tracts composing the jurisdiction of the Contai and the Tamluk subdivisions, the rice harvest was a fair one, and the people were better off than those living in other parts of the district. The only classes which appear to have been hard up, were the inferior Government employes and persons like the weavers of Ghatal subdivision. The latter are described as gradually abandoning their looms and betaking themselves to agriculture and other occupations. The labouring class obtained plenty of work on the railway line in progress. The Sonthals, who form the bulk of the population of thana Binpur, migrated in large numbers in quest of work. Only a few old beggars had to be relieved, and they were so by small doles granted from charitable funds at the disposal of the Magistrate.

46. In Hooghly also, those on whom high prices pressed most hardly, were the landless classes and persons with small fixed incomes. Those who had grain to sell were comparatively well off, but to those with small holdings and no surplus grain, the year was a most trying one. The Collector writes: "In some parts of the district cultivators and men on small salaries, including the police, were reduced to short rations, and generally the labouring classes felt the high prices keenly. The aged and the infirm, and persons dependent on their neighbours or relatives for support, would have been reduced to actual distress, but that the inherent charitable instincts of the villagers which enable the country to get on without a poor law, have, in this trying year, widened the sphere of unostentatious private charity, and in the form of alms and loans of grain prevented actual famine touching even such helpless objects." The mills in different parts of this district also appear to have afforded work to the labouring population.

The Magistrate of Howrah reports in very similar terms. He observes that for those who wanted it, work was always available in the mills and on the different railway and tramway lines under construction.

## VI.—EMIGRATION AND IMMIGRATION.

47. Emigrants were registered during the year in the districts of Burdwan, Bankura, and Midnapore. The subjoined statement shows the number of emigrants registered in each district during the last two years:—

| DISTRICT. | FOR THE COLONIES. |             |        |          |             |        | FOR TEA DISTRICTS. |             |        |          |             |        |

| Hooghly   | ...               | ...         | ...    | ...      | ...         | ...    | ...                | ...         | ...    | ...      | ...         | ...    |
| Howrah    | ...               | 3           | ...    | 3        | ...         | ...    | ...                | ...         | ...    | ...      | ...         | ...    |
| Total     | ...               | 3           | ...    | 3        | ...         | ...    | 3,333              | 1,177       | 4,510  | 547      | 375         | 922    |

The above figures represent, however, but a small proportion of the actual number who emigrated to the labour districts, as free emigration took place largely as it did in 1895-96.

48. The number of emigrant coolies registered in the district of Burdwan, excluding dependents, fell from 2,947 in 1895-96 to 91 in the year under report. This very marked decrease is ascribed to the growing preference of employers for free labour. It is not explained why this preference should have developed so suddenly and so forcibly as in a single year almost to do away with registration. Under the free emigration system, 16,588 coolies passed through the several depôts in this district against 12,561 in 1895-96, an increase which is attributed to an increased demand for coolies in the tea gardens as well as to a widespread apprehension of scarcity in large tracts of the recruiting districts.

49. In Bankura the increase in the number of emigrant coolies is attributed to the high price of cereals in the district. The numbers are however small. Out of 252 coolies and 219 dependents only 17 coolies (with 4 dependents) were brought for registration by professional recruiters employed in Calcutta: all the rest, namely, 235 coolies (with 215 dependents), were recruited by garden sardars. This may be said to show that garden sardars were more successful in securing labourers for tea gardens than were professional "arkatis" who are looked upon with distrust and suspicion. But it is more probably due to the fact that garden sardars usually bring up to the tea districts a better class of cooly than do the others, which accounts for the proprietors of tea gardens preferring the former agency. It is not only that the sardari cooly is usually better value as a worker, but what is as important, having usually friends in the garden he is less likely to desert. The Magistrate reports that complaints against the recruiting agency as regards initial registration have now become rare, special care continuing to be taken to prevent fraud and violence on the part of the recruiters. As usual, a number of labourers left the district in the cold weather in quest of employment, chiefly Sonthals and the semi-aboriginal Bauris. Many also went to Midnapore to work on the railway. Figures showing the extent of these temporary emigrations are not available.

50. In Midnapore the number of registered cooly emigrants continued to decrease, being 204 against 231 in 1895-96. Including dependents, however, the number of emigrants remained the same as in 1895-96, namely, 340. Free emigration was exceptionally brisk during the year owing to the failure of crops in thana Binpur (which is inhabited largely by Sonthals) and to the high prices generally prevailing.

51. Statements showing criminal cases connected with emigration, as prescribed by Government order No. 1848, dated the 21st April 1892, are annexed. A large number of cases occurred in Burdwan, Birbhum, and Bankura, and the majority ended in convictions. There was no case instituted against emigrant coolies.

52. As regards abuses in recruitment, the Subdivisional Officer of Raniganj repeats his last year's opinion that comparatively a very small proportion of the malpractices of recruiters came to light, while a still smaller number can be made the subject of criminal proceedings. He states that when inspecting he has come across large number of unwilling coolies whom he has sent back at the expense of the manager of the depôt in the absence of evidence to support a prosecution. There can be no doubt that the ignorance of the cooly and his confusion on finding himself far from home give the fraudulent recruiter a great advantage. On the other hand, it is equally true that many of these "unwilling" coolies are persons who have changed their minds, but declare they never left home willingly, from the fear lest if they admit this they will not be permitted to return. Widows and other women living a hard life at home are specially open to tempting offers of living at ease on a tea garden in the keeping of some one of the staff.

53. There were altogether 8 places of accommodation for coolies recruited by contractors and garden sardars under Act I of 1882, and 8 depôts and 30 rest-houses for free emigrants under Act I of 1889. One rest-house in each of the districts of Birbhum and Midnapore was opened late in the year, and the temporary rest-house in Howrah came to notice only about the same time. All the other rest-houses and depôts were duly inspected, although only one inspection was recorded in the prescribed register against one of the rest-houses in Bankura. All the depôts in Raniganj and Asansol were inspected by the Superintendent of Emigration, and most of them visited by my predecessor. With few exceptions, the depôts and rest-houses appear to have been sufficiently well maintained as regards accommodation and sanitary arrangements. Two of the rest-houses in Rampur Hat were closed as the sanitary arrangements were found to be wholly unsatisfactory, and the license for a rest-house in Bankura has been withheld pending the erection of a privy and the supply of sleeping platforms for the use of emigrants. Much good is reported to have resulted from the appointment during the year of an Assistant Superintendent of emigration for the Raniganj subdivision. He visits the depôts, checks the admission registers, and keeps a careful watch over the sanitary arrangements, the quality of the food, the water-supply, and the physical condition of the emigrants. He is also said to be often present when coolies are despatched. This is a very important duty, as at that time an examination of the emigrants in the batch and comparison with the registers may lead to the detection of such frauds as the substitution of one person for another, &c.

54. There was no registered immigration into the districts of this Division. Labourers in large numbers come to the Division from the North-Western Provinces and Bihar in quest of work in the brick-fields, mills, factories, and on the railways, and this over and above the interdistrict cold weather movement of labourers, chiefly Sonthals and Bauris, with the same object.

#### VII.—PRICES OF FOOD AND LABOUR.

55. There was an abnormal rise in the price of common rice during the year, the average price in this Division being so high as 10 seers 7 chitaks during the last fortnight of 1897, against 16 seers 7 chitaks in the corresponding fortnight of 1896. This high price is due partly to poor crops in the Division and partly to the enormous quantities of rice and paddy exported from it to other parts of India.

A marked rise in the price of wheat and gram also occurred during the year, but this did not affect the masses, these not being articles commonly consumed by them. Salt was cheaper in Bankura and dearer in all other districts except in Birbhum, where the price of the article remained stationary.

Notwithstanding the high price of rice, the staple food-grain of the people, the wages of labour as reported remained almost unchanged, custom being an

important factor in preventing rapid fluctuations, but when once they have gone up they do not fall again. In Midnapore the new railway works caused a slight rise in the wages of all classes of labourers, except juvenile coolies, *gharamies*, and common blacksmiths.

XIV.—POLICE.

107. My predecessor has not left upon record his opinion as to the working of the police, and my own experience of the Division has been too small to enable me to form one. There is, however, no doubt to my mind that the police in the districts of Burdwan and Hooghly with Howrah, and to a less extent in Midnapore, have peculiar difficulties to contend with in cases affecting property especially. Not only, as the Magistrate of Hooghly points out, do the railways and river facilitate the commission of crimes, but the police have got to deal with better organized and planned crime than is the case in districts more remote from Calcutta, while the vicinity of Calcutta renders safe disposal of the proceeds comparatively easy. In one recent case in which the house-owner plucked up courage and killed a dacoit, it was discovered that the man killed was an English-knowing Babu of fairly respectable family, got up as an Afghan or Peshawari, as the local name is. This instance will serve to show the class of criminal the police have to meet and the difficulties of detection. The death of this dacoit gave a clue to his gang. Had he escaped, some of the Peshawaris of Calcutta and the neighbourhood would have been blamed for the crime as was obviously intended. Another matter which has facilitated crime and handicapped the police in the above mentioned districts is the presence of a large and constantly changing body of unknown up-countrymen employed in the collieries and mills, or on the railway lines in process of construction. These men are answerable for not a few dacoities, and they have taken to using revolvers in some Midnapore cases. It seems very desirable that license for pistols of sorts should not be so freely granted as at present. In some cases dynamite cartridges were exploded by the dacoits in order to frighten away the villagers. These must have been purloined from the collieries—a matter which also calls for attention. It is to be regretted that the shortcomings of the new Sub-Inspector class in Midnapore have not been stated at length, and that other district reports are silent as to how far the new system has had good results. What was at first feared was that the new Sub-Inspector would be a mere office-man—a student quite out of touch with the common people and utterly unable to meet the criminal on his own ground. It was also feared that the head-constables would not from their experience supplement this deficiency of the Sub-Inspectors, both because having no hope of further promotion they had lost heart and interest in their work, and because they were jealous of the new class of Sub-Inspector and did not see why they should exert themselves when the Sub-Inspector alone would get the credit. It would have been interesting to know how far these apprehensions had been warranted by experience.

XXIII—RAILWAYS AND OTHER PUBLIC WORKS.

169. That part of the Calcutta-Cuttack extension of the Bengal-Nagpur Railway passing through the districts of Howrah and Midnapore was under construction during the year: earthwork was nearly finished and ballast trains were in use for the transit of materials on several sections of the line before the close of the year. Station sites are being selected, houses are being constructed, and work generally is being pushed on vigorously.

A flag station was opened in July last on the East Indian Railway close to the Hooghly Bridge at a cost of Rs. 13,741.

The Howrah-Amta and the Howrah-Sheakhala Steam Tramway lines in the districts of Howrah and Hooghly are under construction. These lines should have been opened for traffic on the 25th March last, but as the work could not be completed, Messrs. Martin & Co. have applied for an extension of time up to 31st December 1897.

Of the projects mentioned in paragraph 182 of the Divisional General Administration Report for 1895-96, the following were still under consideration at the close of the year :—

- (1) The construction of a line from Burdwan to Katwa, with another line from the latter town to Hooghly *via* Kalna.  
(The survey of these lines was completed during the year.)
- (2) A line from Bhagalpur to Ahmedpur *via* Suri.
- (3) A line from Midnapore through the Bankura district to Muralia on the Bengal-Nagpur Railway (a reconnaissance has recently been made in connection with this project).
- (4) A line from Chandernagore to Chinsura.

XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

202. The various District Boards in this Division are reported on the whole to have acquitted themselves well. The attendance of members have been generally good, and as consultative bodies, the Boards have in many matters been useful to the District Officers. No party spirit or friction of any kind marred the working of District Boards during the year under report. The Magistrate of Hooghly specially acknowledges the good work done by Vice-Chairman Rai Lalit Mohan Singh Bahadur.

203. The Local Boards in Burdwan are said to have done some useful work during the year. For a time the working of the Kalna Local Board was anything but satisfactory, but matters, it is reported, have now improved. The Vice-Chairman of the Katwa Local Board toured through the subdivision and made some valuable observations in the course of the trip. It would be well if Chairmen and members of Local Boards imitated his example and moved about more. In Birbhum the Local Board discharged its duties satisfactorily, except that attendance was irregular. In Bankura, also, the same complaint of want of interest is made, and the Local Boards showed themselves unequal to the proper management of pounds and ferries, though in the matter of primary education they gave assistance. Mr. W. R. Bright, as Magistrate of Midnapore, adheres to the same unfavourable opinion regarding Local Boards as was expressed by him last year and reproduced in paragraph 217 of the last Divisional General Administration Report. He remarks that any slight improvement in pound management is due to pressure exerted by the District Board, while the state of village roads leaves as much to be desired as ever. He instances a case where he discovered that very little of the money paid to a contractor had been spent upon the work in hand, and he considers that some special agency to inspect these small roads is necessary if work upon them is to be satisfactory.

In Hooghly and Howrah Local Boards are stated to have worked smoothly, though it is reported that in Howrah too much money is wasted on useless fair-weather roads.

204. There are no Union Committees in the districts of Birbhum and Bankura. Those in the district of Burdwan have been entrusted with the control of village roads and the inspection of primary schools, but the Magistrate considers it premature as yet to record an opinion as to their usefulness.

In Midnapore, also, the Magistrate desires to suspend judgment till further experience of their working has been gained. With a stiffening of at least one official or ex-official member some unions in Midnapore have proved useful, and the correctness of the Magistrate's opinion expressed last year that such a stiffening is necessary appears to have been corroborated by recent experience, as in the only union without this more money, it is reported, was billed for and obtained than seems to have been actually spent during the year, the bills being supported by false muster rolls. The matter is under enquiry. The work done by the unions in Hooghly calls, it is said, for no special comment, while in Howrah the unions failed to spend even the small sums allotted to them.

205. A new municipality was formed during the year at Asansol, in the district of Burdwan. The fifth general election of Municipal Commissioners was held towards the end of the year, and especially when personal feeling was imported into the contest, a good deal of interest in the result was exhibited. There seems no doubt, however, that there is a growing inclination on the part of gentlemen who would be acquisitions to a Municipal Board to hold aloof from these elections partly because they object to hold out to the body of voters promises of reduction of taxation, and the like, which they know full well are but empty words, though thus only can they expect success at the poll, and partly because they consider it hurtful to their self-respect to place themselves in competition with candidates not improbably of no social position. The result is that undesirable candidates not infrequently succeed, and faction leaders have more opportunity of getting in their creatures who but vote as directed.

There has been decided improvement in municipal administration in Burdwan, Raniganj, and Katwa, and in Bankura and Birbhum districts, as in Burdwan, municipalities are favourably reported upon. The same may be said of Midnapore district, with the exception of Kharar Municipality, of which the Subdivisional Officer of Ghatal is Chairman. During the interval between the departure on transfer of one Subdivisional Officer and the arrival of his successor, the Municipal Commissioners are reported to have done their best to get municipal affairs into disorder, collections were stopped, as also the issue of warrants. The new Subdivisional Officer has of course set vigorously to work to restore order. The municipalities in Hooghly district, leaving out Jahanabad, are reported to have many points in common. They are all situated on the banks of the Hooghly. None of them have a decent water-supply, and in all cases the drainage is extremely defective. The public lavines are for the most part badly constructed and not properly looked after; conservancy is imperfectly supervised, except when the work is taken up by the Civil Surgeon or the Civil Medical Officer. Taxes are often badly in arrears, and stringent measures for their collection are rarely resorted to, and even when they are, it is only in a half-hearted way. Commissioners are too prone to unwarrantable interference with the servants of the municipality, forgetting that it is not for them, but for the Chairman and Vice-Chairman to pass orders direct. It would matter less were this interference for a good object, though even so it would be objectionable. Unfortunately the intention may very likely be to favour unduly some friend or neighbour. Party feeling runs high in many cases, and to this are subordinated the interests of the public. Establishments are frequently inefficient and but imperfectly supervised, yet attempts to raise salaries are constantly being made, and even when a municipal employé is admittedly past work, it requires all the Magistrate's influence to have his services dispensed with.

Even under such circumstances, however, the Magistrate reports that it has usually been possible to find a majority open to reason in the long run. The water-supply scheme common to all municipalities of Hooghly district, except Jahanabad and Bansberia, has been generally approved; maps have been prepared and forwarded to the Sanitary Board. Mr. F. W. Duke, the Magistrate of Howrah, writes regarding that municipality, the most important in the division:—"The Howrah Municipality appears to have been efficiently managed at an expense out of proportion to its means, and is said to be now cleaner and healthier than it has been for many years. Where the funds are to come from by which this state of efficiency is to be maintained, is not yet apparent." The office management of Bally Municipality is said to leave much to be desired.

## RESOLUTION ON THE ANNUAL GENERAL ADMINISTRATION REPORT OF THE CHITTAGONG DIVISION FOR THE YEAR 1896-97.

GENERAL DEPARTMENT—MISCELLANEOUS.

*Darjeeling, the 17th September 1897.*

RESOLUTION—No. 2810.

READ—

The Annual General Administration Report of the Chittagong Division for the year 1896-97.

Mr. F. H. Skrine was in charge of the Division throughout the year, except for two months during which he was on leave, when Mr. J. D. Anderson officiated. The Report is submitted by Mr. F. R. S. Collier. Mr. S. K. Agasti had charge of the Noakhali district the whole year, and the Feni and Chandpur subdivisions were each under the charge of a single officer; in the other districts and subdivisions there were changes of charge.

2. *Tours and Inspections.*—Mr. Skrine spent 85 days on tour; besides making the usual inspections, he went to Hill Tippera and installed His Highness the Raja on the *gudi*, spent some time in the South Lushai Hills investigating the causes of a disturbance which had occurred there among the Military Police, and visited the island of Kutubdia twice. The tours of District and Subdivisional Officers appear to have been well planned and of sufficient length; but it is not stated what periods of touring were prescribed by the Commissioner under the recent orders of Government. It is not reported when and how Government and Wards' Estates were inspected, nor whether Subdivisional Officers inspected their own offices; all the other prescribed inspections were performed.

3. *Weather and Crops: Material Condition of the People: Public Health.*—As in the rest of the province, the rainfall of 1896-97 was short; the mean of the three Regulation districts was 73·93 inches, 14·5 inches below that of 1895-96, when the mean was again 14·5 inches below that of 1894-95. The crops were poor, with the exception of the *aus* rice and jute crops in Tippera; and prices of food ruled extremely high in this Division as elsewhere, being double those of the preceding year, and treble those of 1894-95. The wages of labour, however, remained stationary. There was some distress towards the close of the year, and charitable funds were raised to relieve it, but it has not been found necessary for Government to open relief operations in any part of the Division. The plague which was destroying the betel-nut trees in Noakhali appears to have ceased.

The following are the death-rates per mille reported in each district for the two years, 1895 and 1896—

|            |     |     | 1895. | 1896. |
|------------|-----|-----|-------|-------|
| Tippera    | ... | ... | 26·7  | 26·4  |
| Noakhali   | ... | ... | 25·2  | 30·19 |
| Chittagong | ... | ... | 30·8  | 32·5  |

As the Commissioner remarks, these low death-rates show registration to be defective; there has, however, been some improvement in this respect, except in Tippera. It would be useless to base upon these figures any inference as to the comparative healthiness or unhealthiness of any particular year.

4. *Manufactures, Trade and Commerce.*—1,130,963 cwts. of tea were exported from Chittagong during the year, against 968,949 cwts. in the previous year. There was a considerable decrease (of Rs. 58,80,226) in the total trade of the Chittagong port, which is valued at Rs. 2,18,03,256. The decrease is common both to imports and exports. Exports of rice and paddy fell off considerably owing to the bad crops, as did exports and imports (from Narayanganj and other neighbouring inland ports) of jute, owing partly to a short crop and partly to the destruction of a large quantity of the staple by fire at Narayanganj. Eleven vessels cleared for foreign ports and 559 for Indian ports, against 19 and 621, respectively, in the previous year. Nine vessels were built here during the year.

The total exports from the Division of rice and paddy amounted to 4,20,502 maunds and of jute to 13,98,405 maunds as compared with 10,63,899 maunds and 15,31,087 maunds, respectively, in the preceding year. The exports of

food-grains to Calcutta decreased considerably, being only 29,019 maunds during the year under report, against 3,85,140 maunds in 1895-96.

5. *Civil Justice*.—There appears to have been a decrease in litigation except in the case of rent suits, the number of which rose from 34,443 in 1895 to 35,633 in 1896; money suits decreased from 29,941 to 28,652 and title suits from 11,627 to 10,913. Both the increase in rent suits and the decrease in other suits are attributed to the agricultural depression. The number of witnesses examined was 103,593 against 106,846; in Munsifs' Courts they appear to have been discharged at about the same rate as in 1895, but in the Courts of District and Subordinate and Small Cause Court Judges the ratio of witnesses detained more than two days to the total number examined was 20·6 against 24·06 in the previous year. In connection with the Chittagong settlement, 209 notices were served under Section 424 of the Civil Procedure Code, and 27 suits were filed during the year, a very moderate number having regard to the magnitude of the Settlement operations.

6. *Crime: Police: Criminal Justice*.—The number of cognizable offences reported increased from 4,892 to 6,148, and that of non-cognizable offences from 11,820 to 14,253. The increase in non-cognizable crime was chiefly in offences against property, due to the bad harvests, and there was a serious increase of arson cases in the district and town of Chittagong. It is difficult to reconcile the increase in non-cognizable cases with the fact of the prevailing depression; and Mr. Collier sees reason to fear that it is due to laxity on the part of Magistrates in admitting complaints, and promises to look into the matter when on tour. The number of cases tried was 10,012 against 8,457 in the previous year; 1,563 cases were tried by Honorary Magistrates. The system of territorial jurisdiction of Subordinate Magistrates in Noakhali and Chittagong is reported to have worked badly. It has always appeared to Mr. Stevens that the advantages of that system are usually much exceeded by the disadvantages. It is satisfactory that, in spite of the large increase of cases, the divisional ratio of the number of witnesses detained for more than two days to the total number examined rose only from 2·4 to 2·7 per cent. in the Courts of Stipendiary Magistrates, and decreased from 16·1 to 12·9 in the Courts of Honorary Magistrates and Benches. In the Chittagong district taken by itself, however, these percentages were very high, being 6·3 and 27·56; and the worst results are shown in the Court of the Subdivisional Officer of Cox's Bazar. This matter should engage the attention of the Commissioner and District Magistrate. One thousand eight hundred and ninety-five cases were sent up by the police against 1,516 in the previous year; 628 of them were disposed of on the first day, and 68 cases or 3·69 per cent. were remanded six times or more. The attendance of Honorary Magistrates has improved generally; at Chittagong it was again excellent.

Eighty-five cases were tried at the Sessions, 72·9 per cent. of which ended in conviction; this result shows that committals were made with care.

Fines to the amount of Rs. 48,311 were imposed during the year, and Rs. 42,026 were collected; the balance outstanding at the end of the year was Rs. 7,088, showing a slight reduction.

The work of investigation by the police appears to have shown improvement in the Chittagong district. Mr. Collier remarks, with justice, that the number of punishments dealt out to chaukidars was too much in excess of the number of rewards; this was especially so in Chittagong, where only 23\* were rewarded and 1,015 were punished.

7. *Land Revenue*.—The current demand on account of Land Revenue and Road and Public Works and Zamiindari Dâk cesses in the Division was Rs. 32,77,148; the outstanding arrears were Rs. 1,65,319. The total collections were Rs. 32,00,505. The following table shows the percentages of current collections on the current demand of Land Revenue in the different classes of Estates, together with the standard percentages:—

|            |     |     | Permanently-<br>settled Estates. | Temporarily-<br>settled Estates. | Government<br>Estates. |
|------------|-----|-----|----------------------------------|----------------------------------|------------------------|
| Standard   | ... | ... | 99                               | 95                               | 90                     |
| Chittagong | ... | ... | 98·45                            | 100                              | 85·78                  |
| Noakhali   | ... | ... | 99·75                            | 92·34                            | 80·22                  |
| Tippera    | ... | ... | 99·51                            | 97·11                            | 77·91                  |

These percentages, especially in Government Estates, compare unfavourably with those obtained in the previous year, but, looking to the shortness of the crops, are not unsatisfactory.

There was a considerable increase in the number of certificate cases instituted, and the number of cases left pending at the close of the year has been almost trebled. The delay in the disposal of certificate work in this Division was commented upon in last year's Resolution. It was then also pointed out that certificate cases in Wards' Estates were increasing to a greater extent than was desirable, and this increase has continued in the year under review. The Lieutenant-Governor trusts that the Commissioner will devote early attention to improving this branch of the revenue administration of his Division.

Mr. Stevens is pleased to note that practically the whole of the allotment (Rs. 18,920), made for the improvement of Government Estates, was usefully spent on excavation and re-excavation of tanks for the supply of good drinking-water and on agricultural improvements.

The average cost per acre of the land acquired on behalf of the Assam-Bengal Railway in Chittagong was almost double what it had been in the previous year. This increase should be explained.

8. *Wards' Estates.*—The number of private estates in charge of Government in this Division was 14, as in the previous year; their total current demand was Rs. 94,191 in Noakhali and Rs. 2,86,406 in Chittagong. The percentages of current collections on these amounts were 62·9 and 85·6, respectively. In only three estates did collections reach the standard of 90 per cent., but the collections on the whole were as good as could have been expected. In Chittagong, Rs. 29,082 were spent on improvements. Large remissions were made in the Noakhali estates mentioned in last year's Resolution, in which the outstanding balances were heavy; but this has not been done in the similarly situated estates in Chittagong. The Lieutenant-Governor again directs the Commissioner's attention to the necessity of reducing these balances.

9. *Excise: Stamps: Income-tax.*—The Excise Revenue fell heavily from Rs. 3,41,931 to Rs. 2,74,721; this decrease is attributed to various exceptional circumstances, as well as to the scarcity and to the spread of puritanism among Muhammadans. The imports of salt decreased, but a considerable portion of the large quantity imported during the previous year was taken out of bond at Chittagong. The stamp revenue rose from Rs. 15,38,860 to Rs. 15,66,569; Rs. 23,544 out of this increase of Rs. 27,709 was due to larger sales of non-judicial stamps, that is, to an increase in the execution of conveyances and bonds. The revenue derived from the income-tax has not been affected by scarcity; it was Rs. 96,781, practically the same as in the previous year.

10. *Education.*—There were 4,673 schools with 1,38,096 pupils, or 186 schools and 2,855 pupils less than the previous year. Of the estimated number of boys of a school-going age in the Division, 45·2 per cent. were at school. In Noakhali this percentage has fallen from 53·6 to 47·08, and the total number of pupils from 40,924 to 35,927; the cause of the decrease is said to be the agricultural depression, but it is remarked that this cause has not had the same result in the neighbouring district of Chittagong, which shows an increase of 1,260 pupils.

There were 14,270 girls at school. The number of Muhammadan pupils in Noakhali and Tippera is not stated; but it rose from 25,558 to 27,007 in Chittagong. In spite of the diminished number of schools and pupils, the expenditure on Education rose from Rs. 4,04,977 to Rs. 4,19,317; Rs. 2,46,389 were spent on primary education. The Lieutenant-Governor notices with satisfaction that the conduct of the school-boys was on the whole good during the year, and that there was a marked improvement in the behaviour of the pupils of the Noakhali School especially.

11. *Dispensaries and Hospitals.*—There were forty of these institutions in the Division, five more than in the previous years; and the number of patients treated shows a satisfactory increase from 2,25,145 to 2,97,211. A new General Hospital was opened at Chittagong, but it appears that more dispensaries are wanted in the interior of this district.

12. *Local Self-Government Institutions.*—The three District Boards are reported to have worked well; but they spent only Rs. 5,63,718 out of an aggregate income of Rs. 7,87,906. The District Boards of Noakhali and Tippera both spent money on useful sanitary works; but that of Chittagong did

nothing in this direction. Local Boards appear to have worked satisfactorily; but the District Officers' opinions of the working of the nine Village Unions in Tippera and Noakhali are not given. There are five Municipalities in the Division, of which the most important is that at Chittagong. The working of this Municipality has been most unsatisfactory for years past, but Mr. Collier hopes for some improvement, as it has recently elected an official Chairman. The rate-payers are, it is reported, strongly opposed to all improvements which entail additional taxation, and the elected Commissioners, even when in favour of improvement themselves, are afraid of incurring unpopularity among their constituents by voting for the introduction of them. Mr. Collier fears that the elective system is unsuited for Chittagong, but desires to give the present body of Commissioners a further opportunity of showing his fears are unfounded before proposing its withdrawal. The Lieutenant-Governor hopes that the Commissioners and their constituents will take advantage of this opportunity. The smaller Municipalities are reported to have done all they could to improve sanitation, but Chittagong to have done practically nothing, considering its income (Rs. 54,386).

13. *Political*.—The most remarkable events of the year in the political jurisdiction of the Commissioner of Chittagong were the death of His Highness Maharaja Bir Chandra Deb Burman Manikya Bahadur of Hill Tippera, and the recognition and installation of his eldest son, the Jubraj Radha Kishore Deb Burman, as Raja of Hill Tippera. His Highness the Raja made generous donations both for the relief of distress and for general public objects in the British districts of the Division, where he has large zamindaris.

The South Lushai Hills was in charge of Mr. R. H. Sneyd-Hutchinson; two powerful chiefs, Kaplehyn and Kairuma, submitted during the year. There was an unfortunate outbreak of insubordination in the Military Police Battalion.

Mr. J. A. Cave-Browne had charge of the Chittagong Hill Tracts throughout the year. The early crops were average, and were sufficient to prevent distress, but the winter rice, cotton and mustard were seriously affected by drought. Exports of paddy, cotton, mustard and *til* showed a considerable increase. No progress has been made in the re-organization of the village police; only 42 offences were reported during the year in the whole of the Hill Tracts. There were 1,175 pupils at school, 127 more than there were in the previous year. The Rangamati High School sent up five candidates for the Entrance Examination, and all passed—an excellent record. A Lushai boy passed this examination for the first time, and has since been awarded a special scholarship.

14. *Conduct of zamindars*.—The principal Zamindars of Noakhali are absentees and did little or nothing to help their tenantry in the prevailing distress, nor was there any conspicuous example of benevolence displayed by the petty landowners of Chittagong.

15. The thanks of the Lieutenant-Governor are due to Mr. Collier for his clear and concise Report, from which the following extracts are published for general information.

By order of the Lieutenant-Governor of Bengal,

M. FINUCANE,

*Secretary to the Govt. of Bengal.*

*Extracts from the Annual General Administration Report of the Chittagong Division for the year 1896-97.*

III.—WEATHER AND CROPS.

13. The year 1896-97 was one of unusual drought, and the outturn of crops was much below the average everywhere in the Division. There has been a gradual falling off in the rainfall during the last three years:—

|               | 1894-95. | 1895-96. | 1896-97. |
|---------------|----------|----------|----------|
| Tippera ..    | 78·57    | 67·54    | 58·17    |
| Noakhali ..   | 117·83   | 100·65   | 89·51    |
| Chittagong .. | 112·57   | 97·28    | 74·13    |

14. In Tippera the decrease was most remarkable in all the registering stations of the Brahmanbaria subdivision. The fall recorded at Agartola is 13·77 against 75·91, which is evidently incorrect. It is remarkable that in August there was only 2·83 inches at Comilla against 14·21 in the previous year, and that there was next to no rain during the month of October. Except in the case of the *bhudo*i or *aus* crop, the outturn of which shows an increase over that of the preceding year, there was a considerable falling off in the outturn of all other crops of the district. The outturn of the *aus* crop saved the Tippera district from the measure of scarcity experienced in the other two districts. The winter or *aman* rice suffered from scanty rainfall, both at the sowing and harvest time.

15. The late beginning and early cessation of the rains had also a most prejudicial effect on both the *aus* and *aman* crop in Noakhali and Chittagong. The outturn was very much below the average. While it was about 13 annas in Tippera, it was only 9 annas in Noakhali, and 10 annas in Chittagong. There was a salt-water inundation in June in the islands of the Noakhali district, and there was a betelnut plague all over the district, which destroyed over 50 per cent. of the trees, and reduced the outturn of the crop to 4 annas. Dr. Watts, the Reporter on Economic Products, visited Noakhali, and is understood to have traced the disease to a parasitic growth, which destroys the inner tissues of trees in an enfeebled state. Happily the plague has not re-appeared.

16. A storm of great violence burst over Chittagong on Wednesday, the 27th May 1896. Considerable damage was done to some of the houses occupied by the Railway Company at Pahartoli, and many old trees on the Dacca Trunk Road were destroyed. The running of the night train between Chandpur and Chittagong was interrupted, and two saloon carriages were blown for several miles and wrecked.

V.—MATERIAL CONDITION OF THE PEOPLE.

21. Insufficient and unsatisfactorily distributed rainfall, and bad harvests for two successive years, told heavily on the material condition of the people of this Division. The poorer classes of cultivators fared badly, and the labouring classes had much difficulty in finding work. While almost famine prices ruled in the market, the wages of labour remained stationary. The condition of the middle classes was almost as bad, many of them having become involved in debt. Mr. Kennedy is of opinion that the real reason of the scarcity of food in his district is the very large quantity of land given up to jute. Ordinarily this crop pays handsomely, but though jute ruled very high for a great part of the year, rice ruled higher. In Noakhali, in addition to the drought, people had to face a series of other reverses. The Magistrate writes:—

“The state of things in the district has been rather unusual for the last four years. In 1893-94 there were serious inundations from very excessive rainfall, the mischief caused by which was immensely aggravated by the terrible cyclone of October 1893. Fortunately, the people had a little respite the next year, the crops of 1894-95 having been very good. The year following was not very prosperous, indeed one of less than average prosperity. The rains began late and ceased early. The *aus* was less than an average harvest, and the *aman*, the principal crop of the district, considerably more so, and the cyclone of 3rd October 1895 made matters seriously worse. Insect pests appeared in many places. The raiyats, already reduced, were in bad straits. But if the rainfall of 1895-96 was scanty and unfavourable, that of the year under report was more unfavourable still.”

22. Matters towards the close of the year became so critical, owing to the failure of the winter rains, that committees and sub-committees were formed, and funds were started all over the Division for the relief of distress which threatened to deepen into famine. A sum of Rs. 10,000 was received from the Bengal Branch of the Indian Famine Relief Fund, and about an equal sum was collected locally. Gratuitous relief has been given in places out of these funds. The District Board also started works in affected tracts, to afford employment to the poorer classes of agriculturists and labourers. With the advent of the long delayed rains, however, prospects have very much improved, as there is every probability of a good *aus* crop all over the Division.

\* \* \* \* \*

#### VII.—PRICES OF FOOD AND LABOUR.

24. As a result of the partial scarcity, the prices rose steadily until they wavered, all over the Division, between 8 and 9 seers a rupee, towards the close of the year. They were almost double those of last year, and ~~double~~ <sup>nearly</sup> those of the year before. Except in some cases of skilled labour, which showed a slight rise in Tippera, and a slight fall in Chittagong, the prices of labour were nearly stationary, and do not seem to have been seriously disturbed by the marked increase in the prices of food.

\* \* \* \* \*

#### VIII.—MANUFACTURES AND MINES.

25. There are no mines, and with the exception of tea, no important manufactures in this Division. As reported in previous years, brass utensils, bamboo and cane baskets, and mats, pottery, rough agricultural tools, coarse, cloth, and *gur*, or undrained sugar, are the principal indigenous manufactures of the Division, which find a ready sale in the local markets.

26. The number of tea gardens working in the Chittagong district was 25, the same as in the previous year. The quantity of manufactured tea exported from Chittagong during the year was 1,130,963 cwts., against 968,949 cwts. in the previous year. Through an oversight, the latter quantity was shown as pounds in the last year's report. The increase is due to the tea gardens in the north of the district having extended their cultivation. Owing to the deficient crop, no rice was milled for exportation during the year by Messrs. Bulloch Brothers & Co. There were three aerated water manufactories at Chittagong, against four in the previous year.

27. Two pearl fisheries of some value were taken possession of by the Government, and settled during the year, in the district of Chittagong. One is situated in the island of Sonadia, near the Moiscal Island. It was discovered by an accident in 1894, and some Arakanese pearl traders confirming the discovery, a few oysters were sent to Dr. Alcock, the Superintendent of the Indian Museum. After a most careful examination, he reported that the pearls found were of trifling value, and that the oysters were not the true pearl-bearing ones, but that they belonged to the species *Piacuna Placenta*. Information of the other pearl fishery, situated on a char at the mouth of the Goomakhali creek, on the east side of the Moiscal Channel, was received in 1896. Some average specimens of the pearls found in Sonadia were transmitted for the inspection of His Honour the Lieutenant-Governor of Bengal, and final orders were then issued for the leasing of both the fisheries, which in the meantime had been ascertained to be the property of Government, the former comprising an area of 1,174·78 acres and the latter 325·12 acres. They have accordingly been leased for a term of three years, on an annual rental of Rs. 3,210, by auction sale to the highest bidder.

\* \* \* \* \*

#### XXIII.—RAILWAYS AND OTHER PUBLIC WORKS.

131. There is little to report under this head. The portion of the Assam-Bengal Railway lying between Akhaura and Karimganj, in Sylhet, was opened for traffic during the year. The present arrangement of the trains on the East Bengal line, and the provision of a special steamer between Goalundo

and Chandpur, have brought Calcutta within 25 hours' journey from Chittagong. The arrangement is a very convenient one for Chittagong, but travellers for Calcutta from stations to the north of Laksam, have to wait at Laksam for no less than three hours for the arrival of the train from Chittagong. There being no waiting room, the inconvenience is great.

132. A proposal has been made for the construction of a branch line connecting Laksam with Noakhali. The project is now before Government.

133. Among other public works undertaken during the year may be mentioned the telegraph office building at Comilla, extension of the Comilla Jail enclosure, and an addition to the District Registration office and hospital building at Brahmanbaria, in Tippera. In Noakhali a room has been added to the Special Sub-Registrar's office, and the plinth and floor of a ward in the jail have been made pukka. A latrine for the Civil Court and a mortuary have been built, and the Munsif's Court-house at Hatya, which was in danger of being washed away by the river, has been removed to a safer place. The Town Hall building at Noakhali, commenced in 1895-96, was completed and opened during the year, and the construction of a hostel for school boys, in the compound of the Government school, has been taken in hand. Five new road bangalows were constructed by the District Board.

134. In Chittagong the new General Hospital was completed and opened during the year, at a total cost of Rs. 93,207. It is a very handsome and commodious building.

XXX.—LOCAL SELF-GOVERNMENT INSTITUTIONS.

161. There were three District Boards in the Division, which were reconstituted during the year under report. The area under their control was 6,641 square miles, with a population of 4,082,795 souls. The following table shows the number of members, and of meetings held by them, and their attendance at each meeting:—

| Name of District Board. | Number of members. | Number of meetings. | Average attendance at each meeting. |
|-------------------------|--------------------|---------------------|-------------------------------------|
| Tippera ...             | 19                 | 18                  | 13.6                                |
| Noakhali ...            | 13                 | 19                  | 8.0                                 |
| Chittagong ...          | 19                 | 11                  | 13.2                                |

162. Each Board had the usual standing Committees for the preliminary consideration of questions to be decided by the Board.

163. The Sub-Committees held 44 meetings in Tippera, 38 in Noakhali, and 24 in Chittagong.

164. The income and expenditure of the District Boards during the year are shown below:—

|                | Income.  | Expenditure. |
|----------------|----------|--------------|
|                | Rs.      | Rs.          |
| Tippera ...    | 2,86,814 | 1,64,621     |
| Noakhali ...   | 2,05,750 | 1,50,037     |
| Chittagong ... | 2,95,342 | 2,49,060     |

165. The District Board of Tippera is reported to have worked satisfactorily. Mr. Kennedy states that he has been much struck with the interest shown by the members, both at the general meetings, and in the work of the departmental Committees. As regards the District Board of Noakhali, Mr. Agasti remarks:—"The members of the District Board have worked harmoniously. They have seldom been divided in any matter, and have discharged their duties carefully and well." In Chittagong the member displayed great interest in the disposal of matters placed before them.

166. There were three Local Boards in the district of Tippera, and 1, in the district of Noakhali. The three Boards in the former district were reconstituted, and the two Boards in the latter were established, during the year. The Local Boards had 4,136 square miles, with a population of 2,792,628 souls, under their control. There was no Local Board in Chittagong.

167. The number of members of Local Boards, and of meetings held by them, and their average attendance at each meeting, are noted below :—

| NAME OF DISTRICT. | Name of Local Board.    | Number of members. | Number of meetings. | Average attendance at each meeting. |
|-------------------|-------------------------|--------------------|---------------------|-------------------------------------|
| 1                 | 2                       | 3                  | 4                   | 5                                   |
| Tippera ... ..    | Comilla ... ..          | 12                 | 13                  | 6·0                                 |

| Ditto ... ..      | Chandpur ... ..         | 7                  | 13                  | 4·7                                 |
| Noakhali ... ..   | Sadar (Noakhali) ... .. | 11                 | 9                   | 6·6                                 |
| Ditto ... ..      | Feni ... ..             | 9                  | 8                   | 6·9                                 |

168. The Local Boards have been entrusted for the present with the administration of water-supply, drainage, and village roads. They appear to have worked satisfactorily, but the information given on the subject is very meagre in all the district reports.

169. There were five village Unions in the district of Tippera, and four in the district of Noakhali were established during the year under report. They had under their control 107 square miles, with a population of 89,143 souls.

170. The number of members of Union Committees, and of meetings held by them, and their average attendance at each meeting, are recorded below :—

| NAME OF DISTRICT. | Name of Union Committee. | Number of members. | Number of meetings. | Average attendance at each meeting. |
|-------------------|--------------------------|--------------------|---------------------|-------------------------------------|
| 1                 | 2                        | 3                  | 4                   | 5                                   |
| Tippera ... ..    | Laksam ... ..            | 5                  | 4                   | 3·0                                 |
| Ditto ... ..      | Sarail ... ..            | 5                  | 4                   | 2·5                                 |

| Ditto ... ..      | Chandpur ... ..          | 5                  | 6                   | 4·6                                 |
| Ditto ... ..      | Matlab ... ..            | 5                  | 3                   | 4·0                                 |

| Ditto ... ..      | Lakhmipur ... ..         | 6                  | 3                   | 5·0                                 |
| Ditto ... ..      | Sandwip ... ..           | 6                  | 4                   | 5·6                                 |
| Ditto ... ..      | Feni ... ..              | 6                  | 1                   | 2·9                                 |

171. The Chairman of the Chandpur Local Board reports very favourably of the work done by the Chandpur and Matlab Union Committees. The Chairman of the Brahmanbaria Local Board also speaks well of the Sarail Union Committee, but not so of the one at Nabinagar, while the remarks of the Chairman of the Sadar Local Board are not encouraging. It would be premature to say anything about the working of the Union Committees in Noakhali, as they worked only for a part of the year.

172. There were five municipalities in this Division, with a total population within the municipal limits of 66,530, and the number of rate-payers was 12,511, or 18·8 per cent. of the population.

173. The question of the establishment of a municipality at Chandpur, in the district of Tippera, is under consideration.

174. The subjoined table shows the number of Commissioners of each municipality, and of the meetings held by them, and the percentage of their attendance at each meeting:—

| NAME OF DISTRICT. | Name of Municipality. | Number of Commissioners. | Number of meetings. | Percentage of average attendance at each meeting. |
|-------------------|-----------------------|--------------------------|---------------------|---------------------------------------------------|
| 1                 | 2                     | 3                        | 4                   | 5                                                 |
| Tippera ...       | Comilla ...           | 18                       | 17                  | 47·0                                              |

| Chittagong ...    | Chittagong ...        | 18                       | 29                  | 33·7                                              |
| Ditto ...         | Cox's Bazar ...       | 13                       | 14                  | 64·2                                              |

175. The elective system is in force in all the municipalities, except Cox's Bazar, where all the Commissioners are appointed by Government under section 17 of the Act. General elections took place in March last. The rate-payers took some interest in them, everywhere.

176. The following figures give the income and expenditure of each municipality:—

| NAME OF DISTRICT. | Name of Municipality. | Income. | Expenditure. |
|-------------------|-----------------------|---------|--------------|
| 1                 | 2                     | 3       | 4            |
|                   |                       | Rs.     | Rs.          |
| Tippera ...       | Comilla ...           | 25,965  | 22,870       |
| Do. ...           | Brahmanbaria ..       | 7,427   | 7,366        |
| Noakhali ...      | Noakhali ...          | 6,406   | 5,709        |
| Chittagong ...    | Chittagong ...        | 54,386  | 49,431       |
| Ditto ...         | Cox's Bazar ...       | 7,455   | 5,483        |

177. Mr. Kennedy writes:—

“The Commissioners of the Comilla and Brahmanbaria Municipalities seem to take interest in their work, but the managements are not altogether satisfactory. The crying want in the Comilla Municipality is a proper drainage system. A scheme to improve the drainage was prepared and submitted to Government for sanction. It is standing over, nominally, pending the settlement of the important question of the outfall drainage; but, practically, the municipality has given up, for the time at least, all idea of interior drainage.”

“The conservancy and the drainage of the Brahmanbaria town are unsatisfactory. The condition of the private privies is reported very bad, and it is essential that the latrine system should be introduced. To this the Municipal Commissioners, however, object, and decline to be moved.”

178. The working of Part IX of the Act in the whole town of Noakhali commenced after the close of the year. Mr. Agasti has not offered any opinion as to the general working of the Noakhali Municipality.

179. The provisions of Part IX of the Act were introduced into the Chittagong Municipality by Government Notification No. 358T.M., dated the 20th June 1896, and operations were started partly in Wards B, C, and D from the 20th September following and the 1st January 1897. The native Municipal Commissioners, at a special meeting held on the 22nd February last, passed a resolution suspending the operation of Part IX, except in respect of persons who were willing to avail themselves of the benefit. This resolution was of course entirely *ultra vires*, and Government in its order No. 1650M., dated the 25th March last, directed that effect should be given to the provisions of Part IX within three months from the 1st April last. The work is now progressing.

180. The working of this municipality has been very unsatisfactory for years past. The rate-payers are strongly opposed to all improvement which entails additional taxation, and the elected Commissioners have, even when they were in favour of improvement themselves, been unwilling in many cases to destroy their chances of re-election by voting against the views of their constituents. Moreover, an unpopular Municipal Commissioner in Chittagong runs the risk, every dry season, of having his house burnt down. A Municipal Commissioner, whose house was recently burnt down, stated to an official his belief that the act was due to his being known to be in favour of the introduction of Part IX. "But," remarked the official, "you voted against the introduction of Part IX." "Yes," was the reply, "but they know I was really in favour of it all the same." The Chittagong version of a well-known proverb is—"Those who live in thatched houses should not vote for unpopular taxes."

181. I am afraid that the elective system is utterly unsuited to Chittagong. I should, however, like to give the present body of Municipal Commissioners a chance of showing that this view is wrong, and I, therefore, do not advocate its immediate withdrawal. They have recently elected Mr. Phillimore, I.C.S., as their Chairman, and this step appears to indicate a desire for an improved administration.

182. Mr. Skrine appears to have been a little premature last year in stating that the municipality had accepted a scheme for a water-supply from the hills. Their acceptance was conditional on the Assam-Bengal Railway agreeing to contribute the bulk of the interest on the initial outlay, in return for a water-supply. The question is now under the consideration of the Railway authorities. I believe the scheme to be a good one, and shall endeavour to carry it through.

183. The Cox's Bazar Municipality is a small one. Its income is chiefly spent in repairing roads and drains. It appears to have worked satisfactorily.

**RESOLUTION ON THE REPORT OF THE BOARD OF REVENUE  
ON THE ADMINISTRATION OF THE SALT DEPARTMENT  
FOR THE YEAR 1896-97.**

**FINANCIAL DEPARTMENT—SEPARATE REVENUE.**

*Darjeeling, the 13th September 1897.*

**RESOLUTION—No. 315T.—F.**

**READ—**

The Report of the Board of Revenue on the Administration of the Salt Department for the year 1896-97.

During the year 1896-97, no administrative change was effected, but since its close, the sanction of the Government of India has been received to the re-transfer of the administration of the Orissa Salt Department from Madras to Bengal, and to the revision, re-enactment and extension to Orissa of the Bengal Salt Law, in place of the Indian Salt Act XII of 1882. The Salt Bill has been circulated for public and official criticism, and measures are being concerted, in correspondence with the Board of Revenue and the Madras Salt authorities, for giving effect to the other questions affecting the Salt Administration. The Government of India have also sanctioned the establishment of a special Preventive Service, to put a stop to the illicit manufacture of salt in certain districts bordering on the sea coast. Two additional private warehouses were established by Messrs. Turner, Morrison and Company, during the year, one at Narayanganj and the other at the Kidderpore Dock Basin.

2. The following statement shows the receipts and charges of the Salt Department during each of the last six years:—

\* Revised figures.

3. The receipts show an increase of Rs. 35,852 over the collections of 1895-96, and the charges, a falling off of Rs. 58,408, thus giving a net increase of Rs. 94,260 in the revenue. As in the previous year, there was a decrease in the receipts from the import duty on salt at Calcutta, and a more than proportionate increase in the receipts from clearances at the outports and the warehousing stations in the interior. The revenue from excise salt shows a marked falling off, owing to reduced sales of salt at the Government factories in Orissa. There was also a considerable decrease in the proceeds from rent of warehouses, owing to many of the golas having remained unoccupied during the year, in consequence of heavy deliveries therefrom and smaller stocks in bond. These heavy deliveries were the result of the high prices of salt prevailing in the market during the year. The decrease of Rs. 58,408 in the expenditure, under both Imperial and Provincial, is mainly due to reduced refunds of customs duty on salt, and to a diminution in the charges incurred for the rent of warehouses, the fixed sheds at Kidderpore being no longer required.

4. The following statement shows the fluctuations in the volume of the salt trade in Bengal during the last ten years, excluding salt imported by land from Ganjam and the Upper Provinces, on which duty is not paid in Bengal:—

\* Revised figures.

The stock of salt in the golas, which, according to revised figures, amounted at the close of the preceding year to over 36 lakhs of maunds, fell at the end of the year under review to 14 $\frac{3}{4}$  lakhs; but besides this quantity, there were 2,05,829 maunds, against 1,602 in 1895-96, lying afloat in the port of Calcutta, ready to be sold direct to purchasers. This reduction of stock is attributed to the high prices prevailing in the market, and the consequent heavy deliveries of salt from the golas.

5. The combined imports into Calcutta and Chittagong show a net decrease of 20,34,651 maunds, or 19·8 per cent., as compared with the previous year, owing to the falling off in imports from European ports. The Collector of Customs, states that this

decrease was caused by the difficulty anticipated by owners of ships carrying salt in obtaining outward freight, in consequence of the prevailing scarcity; while the reduced importation from Liverpool and Hamburg is said to be due to the growing competition of salt in crystals imported from the Red Sea ports and crushed in Calcutta. The remarkable falling off of 4,65,544 maunds, or 89.3 per cent., at Chittagong is attributed by the Collector of Customs to the high market rate of salt in the United Kingdom, and the unsteady condition of the Calcutta market, which checked speculative purchases by local bidders. The following statement shows the different countries and ports from which shipments of salt were made:—

The development of the trade in salt from Aden and the Red Sea ports is indicated by the fact, that while the consumption of Liverpool and Hamburg salt indicated by 11,89,246 and 5,84,692 maunds, respectively, during the year, there was an increase of over 16½ lakhs in the consumption of karkach salt imported from the Red Sea ports and crushed at the golas, and imported ready crushed from Aden. This salt, besides being intrinsically cheaper than any European salt, can be placed in the market at a lower price, because the steamers carrying cargoes from the Red Sea escape the canal dues.

6. Excluding 1,81,050 maunds of Bombay and Madras salt cleared free of duty in Calcutta, duty was paid on 43,11,475 maunds cleared from shipboard, against 63,12,204 in the previous year, while the clearances from bond rose from 35,06,411 to 55,49,433 maunds. On the whole, the total clearances of all kinds, including those of Bombay and Madras salt and of excise salt, rose from 1,04,41,017 to 1,04,77,213 maunds.

7. Deducting from the above clearances the excess of exports from Bengal by land and river over the imports by the same routes, amounting to 7,82,105 maunds, and adding 38,631 maunds of saltpetre salt brought into use, the balance of salt left for consumption in the Province rose from 95,67,163 maunds in 1895-96 to 97,33,739 maunds in 1896-97. The rate of consumption per head was 5 seers, against 4 seers 15 chitaks in 1895-96. In the saliferous districts, excluding Orissa, there was a net decrease of 31,115 maunds in the consumption of licit salt, and the average consumption per head fell from 5 seers 2 chitaks to 4 seers 14 chitaks. The lowest rates prevailed in the 24-Parganas (4 seers 2 chitaks) and Midnapore (4 seers 9 chitaks), although the latter district shows an increase of consumption as compared with the previous year. The large decrease in the 24-Parganas (24,089 maunds) is attributed partly to the impoverished condition of the people owing to scarcity of food and water, and partly to the illicit manufacture of salt in the Sandarbans. The report of Babu Madhu Sudhan Chaudri, Assistant Superintendent of Police, who was specially appointed by Government to investigate the question of illicit manufacture in the latter tract, places it beyond doubt that such manufacture

is conducted on a large scale in the southern portion of the 24-Parganas for the purpose of sale, that the loss of revenue thereby caused is considerable, and that systematic and stringent measures to protect the salt revenue are required. This question is now receiving the Board's attention, in connection with the general scheme for the creation of a special Preventive Service for the saliferous tracts in Bengal. In Orissa, the consumption per head rose from 9·25 lbs. to 9·92 lbs. Various causes, which do not call for special notice, are assigned for the decline in consumption in the remaining salt-producing districts.

8. The price of salt was generally higher than in the previous year, the increase being due to the decline in the imports during the year. In explanation of the rise in the price of imported salt, the Collector of Customs, Calcutta, makes the following remarks:—

“There was a general impression in the past year that larger importations would tend to swell the stocks in bond, and to reduce the prices to an unremunerative level. The total importations, however, fell short of the demand, and salt in bond had to be resorted to for the purpose of meeting requirements for internal consumption. This had the effect of raising prices from Rs. 54 and Rs. 47 in 1895-96 to Rs. 73 and Rs. 75 during the past year for Liverpool panga and Hamburg salt, respectively, and of enabling bonders, some of whom had stocks in bond for upwards of two years, to clear them at profitable rates.”

The average wholesale price (exclusive of duty) of 100 maunds of Liverpool salt, purchased from the ship's side in the port of Calcutta, rose from Rs. 57-14 to Rs. 96-0-9, an increase of six annas and one pie per maund; while the selling price, which in 1895-96 had varied from Rs. 81-2-4 to Rs. 44-5-6, ranged during the past year from Rs. 124-3 to Rs. 71-15-8. The average wholesale price, inclusive of duty, at the nine chief marts of Bengal, rose from Rs. 3-9-11 to Rs. 3-13-9 per maund. The corresponding average, based on the wholesale prices of all the districts in Bengal, rose from Rs. 3-11-1 to Rs. 3-15-6 per maund.

9. The total imports from Madras, the Upper Provinces and Assam of duty-paid salt, rose from 3,83,940 to 5,15,969 maunds, during the year, the increase being due partly to larger importations from Ganjam, and partly to the higher prices of sea-imported salt. For the latter reason the exports from Bengal to Assam and Northern India fell from 11,07,330 to 10,64,101 maunds, but this decrease was more than counterbalanced by the increase of 49,708 maunds in the exports to Foreign States beyond the northern border, and of 137 maunds in the exports to the Central Provinces and Madras. The net result was an excess of exports over imports of 7,82,105 maunds, against 9,07,518 in 1895-96.

10. The number of cases in which contraband salt was confiscated, including cases that occurred in the Orissa districts, rose from 504 to 1,056 during the past year, and the quantity of salt confiscated from 161 to 702 maunds.

Working of the Salt Laws and Rules.

In Midnapore, there were 41 cases, against 59, and the quantity confiscated amounted to 4-3-13 maunds, against 10-17-7 maunds in the previous year. Of the entire quantity attached (64-3-13 maunds), 37-15 seers were seized in cases of illicit manufacture, and 63-5-14 maunds in cases of illicit possession and transport. In the 24-Parganas, the number of cases in which salt was confiscated fell from 118 to 105, but the quantity confiscated rose from 21 to 58 maunds, 17 maunds having been seized for illicit manufacture and 41 maunds for illicit possession and transport. The general scarcity during the year, and the attendant distress among the lower classes, is said to have caused the considerable increase in these cases detected in the two salt producing districts of Chittagong and Noakhali. In Orissa, the number of cases in which salt was confiscated rose from 164 to 725, and the quantity confiscated from 32 to 587 maunds. The total number of cases instituted in the courts throughout Bengal was 905, against 506 in the preceding year. The large increase of 417 cases in Orissa is attributed by the Board partly to scarcity and the consequent distress, and partly to stricter supervision on the part of the salt officers. The cases sent up for trial with evidence of illicit manufacture in the Orissa districts numbered 489, of which 110 were for the possession of earth-salt, 2 for the possession of salt-earth, and 377 for the possession of brine. Altogether, there were 1,097 seizures and 86 unsuc-

cessful searches in the salt-bearing tracts during the year, against 487 and 101, respectively, in the previous year. Of 926 persons apprehended, 819 were convicted. Rewards were disbursed to the amount of Rs. 3,856.

11. As usual, a separate portion of the Board's Report deals with the administration of the Salt Department in Orissa, which, as noticed above, will shortly be re-transferred to the Government of Bengal. In last year's Resolution it was remarked that the decision of the question whether the Government salt factories on the Chilka Lake, which had not been working successfully, should be abandoned, would be deferred until the close of the manufacturing season then current, and until it was known what effect the East Coast Railway would have on the sales of salt manufactured at these factories. In consideration, however, of the scarcity that prevailed in the country bordering on the Chilka Lake, it was decided that, for the present, the operations at the factories should be continued, but only on such a scale as would give reasonable employment to the landless classes and to the cultivators whose crops have failed. The question whether the manufacture of salt at the lake should be permanently continued, will be further considered when the transfer of the Orissa salt administration has been carried into effect. The receipts of the Orissa Salt Department fell from Rs. 2,05,433 to Rs. 1,25,213, and the expenditure from Rs. 1,48,880 to Rs. 1,45,263. The decrease in receipts is attributed by the Board to the fall in the sale of locally-manufactured salt, owing chiefly to the temporary diversion of the trade to the Naupada factory in the Madras Presidency, where salt was sold at a lower price. The following statement shows the consumption of salt during the last five years, and its rate per head of the population:—

**Imports.**—During the period under report, the imports of rice amounted to 42,683 cwts., against 37,964 cwts. in the first week of September 1896. The amount imported from Burma was 25,741 cwts., and that from the Straits Settlements 1,688 cwts., both against nil in the corresponding period of last year. Shipments of rice from Chandbali fell off from 33,289 cwts. to 9,286 cwts., while those from Balasore increased by 1,307 cwts. The imports of paddy came chiefly from Chandbali, Balasore, and the Straits Settlements. The decrease under the head of gram and pulses amounted to 3,629 cwts., owing chiefly to smaller shipments from Coconada and Chandbali. Hongkong and the Straits Settlements, however, contributed 1,132 cwts., against nil in the corresponding period of last year.

**Exports.**—In the following statement the total quantity of each kind of food-grain exported by sea during the week ending 7th September 1897 is compared with that for the corresponding period of 1896:—

The exports of rice from Calcutta to foreign ports declined from 37,348 cwts. in the first week of September 1896 to 12,134 cwts. in the period under report, owing chiefly to a decline in the exports to Ceylon, which received only 1,601 cwts., against 24,299 cwts. in the corresponding period of last year. The decrease under gram and pulses was chiefly due to the cessation of exports to the United Kingdom, which took 4,444 cwts. in the corresponding period of 1896, and the exports to Ceylon showed a falling-off of 3,611 cwts.

As regards Indian ports, the exports of rice during the first week of September 1896 amounted to 3,509 cwts., against 573 cwts. in the period under report. The shipments for Bombay were nil, against 2,037 cwts. in the first week of September 1896. Under wheat there was an increase in the shipments to Rangoon, which received 2,613 cwts., against 220 cwts. in the same period last year.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

During the ten days under report, the total imports of rice into Chittagong amounted to 5,344 cwts., the whole of which came from Burma, against nil in the same period of 1896. As regards exports, Narayanganj received 2,057 cwts., against nil in the corresponding period of last year. The import trade of Balasore ports improved by 698 cwts. owing to receipts of wheat and miscellaneous food-grains from Calcutta, against nil in the same period of 1896. Chiefly on account of smaller consignments of rice and paddy to Calcutta, the export trade of those ports fell off by 33,155 cwts. The exports of rice from False Point amounted to 3,109 cwts., of which 2,082 cwts. were despatched to Cochin and the rest to Colombo, against nil in the corresponding period of last year. Colombo also received 11,945 cwts. of rice from Puri, against nil in the last ten days of August 1896.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below:—

Singhbhum.—Rainfall at Ohaibassa 13, Ohakradharpur 2.19, Kalikapur 1.72, Ghatsila 1.06. Rice plentiful; price 8 to 12 seers per rupee.

General Summary.—There was general rain during the week. The fall was heavy over a considerable part of Bengal Proper and in the Champaran district. The general agricultural prospects are favourable throughout the Province. The transplantation of winter rice is almost over, and the young plants are doing well. Early rice is still being harvested. Jute is being cut, steeped and washed. The harvesting of *bhadoi* crops in Bihar and Chota Nagpur is in progress. Sugarcane generally promises well. The ploughing of lands for *rabi* has commenced in places. Insects are still infesting the rice plants in Cuttack. The price of common rice remained practically unchanged since last week, but that of the *bhadoi* food-grains in Bihar has fallen. In the distressed districts the prices of the staple food-grain on which the famine wage is based are—Bankura (common rice) 8½ to 11½ seers, Saran (Indian-corn) 15½ seers, Champaran (Indian-corn) 15½ seers, Muzaffarpur (Indian-corn), 15 to 20 seers, Darbhanga (Indian-corn) 15 seers, Puri (common rice) 9 to 10 seers, Manbhum (common rice) 8½ seers.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h., 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; < lightning; lr, lightning reflection; Δ, dew.

## NOTICE.

*Entrance Examination.*

A TEST examination of private students for admission to the ensuing Entrance Examination will be held at the Office of the Inspector of Schools, Presidency Circle, 4, Dalhousie Square, Calcutta, on Friday, the 17th, and Saturday, the 18th December 1897. Such candidates only as reside in any of the districts of the Presidency Division including Calcutta will be admitted to the examination.

2. Only those candidates who do not appear from any school, *i.e.*, who have not been in any school since the 1st of September next preceding the examination, will be treated as private students. They will be required to furnish satisfactory proof that they have not read in any school from that date. They must also produce certificates of conduct and progress in studies from the authorities of the last school where they read, or, in the case of those who have not been in any school for more than a year, from some other reliable authorities.

3. *Bond fide* teachers employed in any of the schools in the Presidency Division, may be admitted to the examination, if they can produce certificates of service and character from their employers, or from the Deputy Inspector of the district concerned.

4. Each candidate should submit to this Office, not later than the 8th December 1897, his application for admission to the test examination, stating the following particulars:—

(1) Age; (2) residence; (3) father's name; (4) second language besides English, and (5) whether he appeared at any previous Entrance Examination.

5. The admission-fee for the examination is Rs. 4 for each candidate, and is to be remitted with the application, within the prescribed date, after which a fine of Rs. 2 is to be imposed for each week's delay.

6. No private student will be admitted to the test examination unless accompanied, for the purpose of identification, by some person known to this Office.

7. Candidates who are sent up by this Office must appear at the Calcutta Examination Centre.

8. Those that reside at a distance from Calcutta may present themselves at the test examination held by the head-master of the nearest zilla or Government high school within the Presidency Division, on condition that they appear at the centre selected by the candidates from that institution. The head-master of such school is hereby authorised to sign the applications from these students, which must afterwards be countersigned by the Inspector. The fees and fines, paid by such students, as per paragraph 5 above, are to be credited to the school fund.

*F.A. and B.A. Examinations.*

Deputy Inspectors, Sub-Inspectors, and *bond fide* teachers of recognized English schools, in the Presidency Division, who have served as such for full two academical years, or for six months, in the case of those who have been admitted to a former examination of the same class, will be admitted to the above examinations on production of certificates of character and length of service (with dates) from their employers. Their applications must reach this Office on or before the 1st December 1897.

RADHIKA PRASANNA MUKHERJI,

*Inspector of Schools, Presidency Circle.*

4, DALHOUSIE SQUARE, CALCUTTA,

*The 8th September 1897.*

Shahabad Collectorate, the 8th September 1897.

J. WINDSOR, Collector.

NOTICE is hereby given, under sections 6 and 13, Act XI of 1859, that the undermentioned estates and shares of estates in the district of Chittagong will be put up for sale at the Office of the Collector of that district on the 26th day of November 1897, at noon, for arrears of revenue and other demands which by law are realisable as arrears of land revenue.

When in columns 5, 7 and 9 of the appended statement it is stated that only a share is to be sold, it is to be understood that a separate account is kept for such share, and the other share or shares in the estate are excluded from the sale:—
